Dumlupınar University

Founded in 1992, Dumlupınar University is an institution at national and international level of education, research, innovation and entrepreneurship. It has two campuses with an area of 7500 and 480 acres respectively as well as 9 more in its each different district. Dumlupınar University is located in the centre of Kütahya. Bringing together the classic Anatolian architecture and modern style, Evliya Çelebi Campus hosts most of the faculties and schools. The number of programs and students has been increasing since it was founded, and currently DPU has associate degree, first degree, second degree and third degree programs distributed through 4 institutes, 10 faculties, 5 schools and 15 vocational schools.

The main gate of Evliya Çelebi campus was built in Ottoman-Seljukian style, the basic style of all the buildings in campus, in a form welcoming everyone. This enormous gate made of stone has got two large towers in the middle and there are other towers gradually getting smaller on both sides among which there are chambered entrances. A large ring road which separates those areas still under construction surrounds the existing buildings. No vehicles are allowed to enter inside the faculty blocks. Thus the areas for vehicles and the pedestrians are separated to a large extend. Right after the large Stone Gate there is a 160×300 m large square inside the campus.

Opposite the Stone Gate, the Rectorate Building is located. On the right and left sides of the square there are the Faculties of Art and Science, Faculty of Engineering and Faculty of Education with their deans' offices and education buildings. On the square, there are five pools located on a line between the Rectorate Building and the Stone Gate. Between the pools and the Rectorate Building there is the Monument of Atatürk and Dumlupınar which represents our university.

In the School of Foreign Languages, DPU offers language education for English, German, French, Russian, Spanish and Arabic. In the upcoming years, it is planned that more languages are added such as Italian, Chinese and Japanese. Furthermore, the Turkish Education Center (TÖMER) offers Turkish Language Education, Certificate Programs and other activities for the students coming from different parts of the world.

Our university has been integrated with Europe in the framework of European Commission Bologna Process. Through the international relations, DPU performs student and staff exchange with European countries and other countries from around the world via bilateral agreements and Erasmus and Mevlana Exchange Programs.

Dumlupınar University relies increasingly on quality, and thus has invested in the expansion of its facilities in both academic and social senses to offer the best conditions for the students. At DPU, the students can take the chance to have high-quality education and research activities as well as many social, cultural and sports facilities.

Useful Information

1. Visa

Obtaining a student visa before departing your home country is a requirement for formal registration as a student at a Turkish university. Therefore, students who come to Turkey without a student visa will neither be allowed to register as a student at the university nor receive a residency permit once in the country. Student visas must be obtained from a Turkish consulate, generally the one nearest your place of residence in the country of your nationality. Student visas CANNOT be issued within Turkey. You must take or mail a copy of your "Letter of Acceptance" from a Turkish university and hand in a completed visa application form to the appropriate Turkish Consulate. Consulate staff can provide you with an application form upon request. Please note that it generally takes around eight weeks from the time you submit your application until you receive your visa. The student visa will be stamped in your passport.

For more visa information, please visit [Ministry of Foreign Affairs' official website](#).

For more information regarding residence permit, please visit [Turkish National Police's official website](#).

2. Residence Permit

In addition to a student visa, you will also need a residence permit to live in Turkey. This will allow you to travel in and out of the country without re-applying for a visa. You must register and obtain your residence permit within one month upon arrival in Turkey from the Foreign Relations Department at the local police headquarters. You will be given a residence permit booklet on which will be written your temporary Turkish Identity Number beginning with "99". Please be aware that these permits have an expiry date and must be renewed before the expiration.

Required Documents for Residence Permit:

- Signed certification, transcript issued recently from the school, showing that you are a student.

Note: If you lose your permit you must notify the authorities and obtain a new one in 15 days. In case of changes in address or school you must inform the authorities immediately.

Make sure you always have a photocopy of your passport and residence permit. If you lose it or it is stolen, this will help you obtain a new one.

Please remember that our university will help you all the way during your residence permit procedure.

All international students can take the advantage of “general health insurance” coverage in Turkey. When you complete your application, you will pay your general health insurance fee which is determined on an annual basis within 1 month from the date of Social Security records. The fee is about 200 € and you can pay in any bank in Turkey. If you study at our university for one semester the rest of money will be given to you when you are leaving.

By the inter-city public busses it takes about 4 or 5 hours from Kütahya to Ankara, İzmir or İstanbul while it takes about 6 hours to Antalya.

From İstanbul to Kütahya, there are two possible ways; by bus or by plane. We have a new airport really close to Kütahya, Zafer Airport. There are flights on specific days and if the flights from Europe can connect with the flight to Kütahya, it's better to take the plane. But if it is not possible to take the flight to Kütahya, you can always find tickets for buses. And if you come by plane, there are always buses from airport to city centre which takes not longer than 45 minutes. The price is not more expensive than 2,5 € (approximately 10 Turkish Liras).

8. Shops

One of the best things in Kütahya, Turkey is that almost every shop is open everyday until 22:00 even on Sundays. Weekdays and weekends shops are open from 09:00 a.m. to 22:00. These working hours are same for shopping centers. There are even shops, cafes and restaurants which are open until midnight.

Now, let's talk about some shopping tips in Turkey. When you decide to buy something, try to be one of the first customers because Turkish shopkeepers believe that the first customer is sent by the God and pleasing him or her brings good luck throughout the day. In addition to this, bargaining for everything except food and clothes in shopping malls is quite usual in Turkey. We would like to state that shopkeepers in Turkey are largely honest. Do not think you are overcharged ☺

9. Eating Out

As Turkish cuisine is one of the richest in the world, you may enjoy a wide variety of dishes. You have probably heard Turkish Kebab, Turkish Delight, Turkish Coffee, Turkish Baklava and Turkish Raki.

The city of Kütahya offers a wide variety of cuisine with traditional food and accessible price. You can try Kebab only for 3-4 Euros in Kütahya. Also you should try the famous dishes of Kütahya, too. For example, Cimcik, Sıkıcık soup, Göveç (a kind of meat dish), Tosunum (a kind of pastry with green lentil), Gözleme (a kind of pastry).

At Dumlupınar University, students' food requirement is fulfilled with hygiene standards and the meals are served in Bedesten and the dining halls. Also, the canteens at our units are on good conditions and provide food and drink affordable for students.

As we have stated above, the prices are also reasonable. As a student if you always eat out, you can spend 200 Euros per month.

You can find a wide variety of leisure time activities and entertainment in Kütahya, Turkey. There are cinemas in the city center of Kütahya. - It is an offence to insult the Turkish nation or the national flag, or to deface or tear up currency.
- Smoking is prohibited on public transport and in all indoor workplaces and public places. Smoking is restricted in some outdoor areas where cultural, artistic, sports or entertainment activities are held.
- You have to be 18 to drink alcohol in Turkey. The police may come to bars and check ID looking for underage drinkers. Also, after 22.00 p.m. alcohol sales is forbidden.
- Don't take photographs near military or official installations. Ask for permission before photographing people.
- While visiting any of the mosques in Turkey, it is required that women are required to cover their heads with a scarf and naked parts of their legs and shoulders. If you do not have a scarf, please ask at the entrance.
- Crossing a big city street can be dangerous. If there is one, always use marked pedestrian crosswalk. If there is no designated crosswalk, make sure there is enough of a break in the traffic to allow you to cross safely. As a general rule, drivers are supposed to give way to a pedestrian but, unfortunately, not all drivers do so.
- You should not expect to get iced beverages in Turkish eating establishments. While bottled beverages (water, soft drinks and so on) are kept in a refrigerator, they may not be cold in a busy eatery.

- Traffic in Turkey drives on the right hand side of the road. Whether you plan to rent a car or drive your own car in Turkey, you should bring your driving license so that you don't need to apply for an international driving permit. If you are planning to stay for a long term in Turkey, then your foreign driving

license is usually only valid for up to 90 days. After this time, you must apply for an international driving permit. The minimum age to drive a motorcycle or car in Turkey is 18.
