The most important condition to maintain the existence of a society is to have healthy individuals. Production power of healthy societies has continuously been increasing. Societies are in need of a considerable amount of energy to continue and ensure this production. Nowadays, developed and devoloping countries are giving preference to renewable energy source in order to supply their energy needs. Therefore, the importance of the relationship between renewable energy and health are becoming increasingly clear. To balance and manage this relationship has a major importance for those countries.

Bir toplumun varlığını sürdürebilmesinin en önemli koşulu sağlıklı bireylere sahip olmasıdır. Sağlıklı toplumların üretim gücü sürekli olarak artmaktadır. Toplumlar bu üretimi sağlamak ve devam ettirmek için yoğun bir enerjiye gereksinim duymaktadır. Günümüzde de enerji gereksinimlerini gidermek amacıyla gelişmiş ve gelişmekte olan ülkeler, yenilenebilir enerji kaynaklarına yönelmektedir. Bu yüzden sağlık ile yenilenebilir enerji arasındaki ilişkinin önemi gittikçe daha da anlaşılır hale gelmektedir. Bu ilişkiyi dengelemek ve birlikte yürütmek ülkeler için büyük önem arz etmektedir

NAME OF THE CHAPTER

FORMAT AND APPEARANCE

2.1.Paper

All copies of the thesis must be on good quality white bond paper, of at least 75 g, measuring 210 by 297 mm (A4) to insure durability, permanency, and opacity. Only **double-sided** copies will be accepted for the one copy that will be given to Graduate School for METU Library. Higher Education Council (YÖK) Library does no longer require a hardcopy of the thesis.

2.2.Margins

The left margin (binding side) must be at least 4 cm wide to allow for binding; other three margins must be at least 2.5 cm wide. The top margin of all the pages with headings must be 2.5 cm and must be at the same length. The bottom margin must be 2.5 cm, and page numbers must be out of the bottom margin. Headings, page numbers, text, tables, illustrations, etc. must all be contained completely within the area bounded by the margins.

2.3. Font and Font Size

Text must be typed in Times New Roman. Text font-size should be 12-point including equations. Table and Figure headings, long biographical quotes and extensive quotations should be 10-point.

2.4. Spacing

The general text of the manuscript must use **1.5** although tables, long quotations, may be single-spaced.

2,5 Pagination

Each page in the thesis (after the inner cover) is expected to have a page number. Abstract pages; Table of Contents, List of Tables and Figures should be numbered, using lower case Roman numerals. The Roman numeral page numbers must be at the top right of the pages starting from the abstract section page of the thesis. For the remainder of the thesis, pages must be numbered consecutively through the thesis, starting at the first page of the Introduction using Arabic numerals. The Arabic numeral page numbers must be at the bottom right side of the pages.

2.6 Headings

Headings should be in Times New Roman. There may be at most four levels of headings which are chapter headings, first level title and second level subtitle. Chapter headings must be centered, bold face, all capital and 12 pt. First level titles must be left adjusted, bold face and 12 pt. Second level subtitles must be left adjusted and 12 pt.

2.7. Citation

It is important to follow a consistent citation usage throughout the thesis. Suggested citation usage follows the APA style (surname of the first author,)

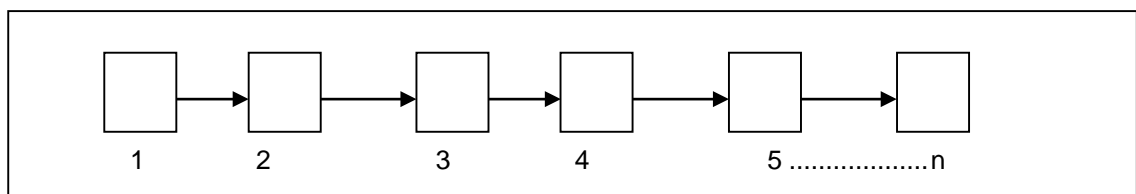

2.8. References or Bibliography Page

A references/bibliography page should be given at the last pages of the thesis before index page. This page is a selected list of all books, articles, and other source material related to the thesis research and is always in alphabetical order, with the author's last name first. Referencing style should be the same as citations, which is APA style.

2.9. Tables and Figures

Tables and Figures should be as given below:

Figure 2.1: Name of the Figure

Source: Wilson, 1999: 35
