[6.4] Total Research Funds (in US Dollars).....	225
[6.6] Number of Scholarly Publications on Sustainability .....	226
[6.7] Number of Events Related to Sustainability .....	227
[6.8] Number of Student Organizations Related to Sustainability.....	232
[6.9] Number Of Cultural Activities on Campus (E.G.Cultural Festival) Including VirtualActivities .....	236
[6.10] Number of University Program(S) to Cope With Covid-19 Pandemic .....	240
[6.11] Number of Sustainability Community Services Project Organised and/Or Involving Students .....	251
[6.12] Number of Sustainability-Related Startups.....	252
CONCLUSION .....	259

## INSTITUTIONAL VALUES

### **Mission**

To train individuals with professional competencies with the responsibility of scientific research and community service.

### **Vision**

To educate individuals who have professional knowledge and skills preferred in their fields.

### **Our Core Values**

- Giving importance to Research and Development studies
- Commitment to moral values
- Altruism
- Being open to innovations
- Being sensitive to the environment
- Being responsible to society
- Internationalization

### **Our Quality Policies**

#### **Applied Education Policy**

- Creating practice-based curriculum in all units
- Continuous improvement of education with the participation of stakeholders
- Continuous development of laboratory, information and technological facilities

#### **Entrepreneurship Policy**

- Dissemination of employment-oriented entrepreneurship courses in the curriculum
- Supporting entrepreneurial skills

#### **Foreign Language Policy**

- Increasing the development of foreign language skills
- Dissemination of business foreign language in units

#### **Technology and Information Policy**

- Development of employment-oriented technology and technological competencies

#### **Lifelong Learning Policy**

- Supporting practices fostering continuous learning habits
- Presentation of educational opportunities for community needs

#### **Education and Environment Friendly Campus Policy**

- Protection and development of physical infrastructure that increases education quality
- Maintaining the current understanding of green campus
- Initiation of initiatives to meet GreenMetric criteria

#### **Social University Policy**

- Making sociopark a model for universities
- Increasing activities to improve community awareness
- Developing applications to increase City-University interaction

## STRATEGIC GOALS AND TARGETS

**Objective 1:** Increasing the weight of practice in education.

### **Targets**

- Updating course content and outputs for practice.
- Updating laboratories and ateliers.

**Objective 2:** Creating course curricula by taking into account the views of external stakeholders.

**Targets**

- Establishment of the regulation regulating the activities of the Advisory Board of Education Programs.
- Inclusion of employment courses in the curriculum (business foreign language, entrepreneurship, etc.).
- Updating curricula based on technology and Informatics.

## [1] SETTING AND INFRASTRUCTURE

### [1.1]. Number of Campus Sites

	Kütahya Dumlupınar University Turkey
	Kütahya Dumlupınar University Turkey

#### Establishment

Kütahya Academy of Economics and Administrative Sciences, which forms the core of Kütahya Dumlupınar University, was established on October 12, 1974, under the name of Kütahya School of Management Sciences, affiliated to Eskişehir Academy of Economic and Commercial Sciences.

The college, which started its education in a two-storey building near the Kütahya Zafer Square on December 4, 1974 and is now affiliated with the Presidency of the Turkish Manuscripts Institution, was upgraded to a faculty by the Academy on February 15, 1979 and renamed the Kütahya Faculty of Management Sciences. With the Decree Law No. 41 on 20 July 1982, the institution was organized as Kütahya School of Administrative Sciences, affiliated to Anadolu University Faculty of Economics and Administrative Sciences. In 1987, it was named Kütahya Faculty of Economics and Administrative Sciences by law.

Dumlupınar University was separated from Anadolu University by law on 11 July 1992. In addition to Kütahya Faculty of Economics and Administrative Sciences and Kütahya Vocational School, the newly established Faculty of Arts and Sciences, Faculty of Engineering, Simav Technical Education Faculty, Bilecik Faculty of Economics and Administrative Sciences, Institute of Social Sciences and Institute of Science and Technology were affiliated to Dumlupınar University.

## The First Years

Dean's  
Office of  
the Faculty  
of  
Economics  
and  
Administrative  
Sciences

Faculty of  
Fine Arts

One year after the establishment of the university, which continued its education in the building in which it was founded while affiliated with Anadolu University in the 1993-94 academic year, a vocational school was opened in the districts of Tavşanlı and Gediz, with the decision taken by the Higher Education Council (YÖK). In 1994, vocational schools affiliated to Dumlupınar University were established in 10 districts of Kütahya and 4 districts of Bilecik. The construction of Evliya Çelebi Campus, which is the largest and central campus of the university, started in 1995. Three years later, the Faculty of Arts and Sciences and the Faculty of Engineering, and then the Faculty of Economics and Administrative Sciences moved to this campus. The first rectorate building in the campus has been arranged as the building where the Dean's Office of the Faculty of Economics and Administrative Sciences is located today.

Faculty of  
Engineering

With the establishment of Bilecik University in 2007, Bilecik Faculty of Economics and Administrative Sciences and vocational schools in Bilecik's Gölpaazarı, Osmaneli, Pazaryeri and Söğüt districts were separated from Dumlupınar University and joined to Bilecik Şeyh Edebali University with its current name.

After the Faculty of Medicine, Simav Technology Faculty established instead of Simav Technical Sciences Faculty which was closed in 2009; in 2011 The Faculty of Dentistry; in 2012 The Faculties of Theology and Architecture, the Institute of Educational Sciences and the Tavşanlı Tourism Management and Hotel Management and Foreign Languages Schools were established connecting to Dumlupınar University Rectorate.

With the law numbered 7141, which changed the name of the university to Kütahya Dumlupınar University in 2018, the faculties of Medicine, Dentistry and Health Sciences, Health Sciences Institute, Gediz Health Services Vocational School and Simav Health Services Vocational School were transferred to the newly established Kütahya Health Sciences University.

In 2019, Tavşanlı Tourism and Hotel Management School was transformed into Tavşanlı Faculty of Applied Sciences, School of Applied Sciences was transformed into Kütahya Faculty of Applied Sciences, and in 2020, Physical Education and Sports School was transformed into Faculty of Sports Sciences.

**Kütahya Dumlupınar University Campuses:**

1. Evliya Çelebi Campus
2. Germiyan Campus
3. Altıntaş Vocational School
4. Çavdarhisar Vocational School
5. Domaniç Hayme Ana Vocational School
6. Dumlupınar Vocational School
7. Emet Meslek Vocational School
8. Gediz Vocational School
9. Hisarcık Vocational School
10. Pazarlar Vocational School
11. Simav Vocational School
12. Şaphane Vocational School
13. Tavşanlı Vocational School

Altıntaş  
Vocational  
School

The fact that the Vocational School is close to the surrounding provinces provides an important advantage for the students. The vocational school continues its educational activities with the departments of Postal Services, Population and Citizenship, Food Technology, Food Quality Control and Analysis, Laboratory Technology.

Çavdarhisar Vocational School

Çavdarhisar Vocational School was founded in 1994. The vocational school continues its educational activities with the departments of Tourist Guidance.

Domaniç Hayme Ana Vocational School

The vocational School started its education life in the 1994-1995 academic year in line with the principle of raising qualified manpower in parallel with the developing country's economy and technology. The vocational school continues its educational activities with the departments of Banking and Insurance, Logistics, Social Security and Information Management.

Dumlupınar Vocational School

Dumlupınar Vocational School is a higher education institution that provides two-year associate degree education on the basis of formal education in order to meet the need for qualified intermediate staff in various fields such as energy, education and health services in line with the principles and objectives of our country's development plans, and to establish a link between manpower and educational elements. The vocational school continues its educational activities with the departments of Alternative Energy Resources Technology, Child Development and Health Institutions Management programs.

Emet Vocational School

Our school, which started its educational activities in the 1994-1995 academic year, today, it continues its education and training services under 9 different programs, namely Child Development, Foreign Trade, Business Management, Chemistry, Public Finance, Securities and Capital Markets, Accounting and Tax Applications, Health Institutions Management, Tourism and Hotel Management. Moreover, foreign trade, Chemistry, Finance and Health Institutions and Management programs also have evening education. Our college, which has an open area of 38000 m<sup>2</sup> and a closed area of 3800 m<sup>2</sup>, is 100 km away from the center of Kütahya, and transportation can be provided from the Kütahya Central Bus Terminal.

Gediz Vocational School

Gediz Vocational School is 3 km away from the district center and with its campus built on an area of 418,000 m<sup>2</sup>; It provides its students with a comfortable and peaceful educational environment with its architectural structures that are far from the crowd of the city center and intertwined with nature. In addition, Gediz Vocational School; with its modern sports facility, social facility and library, where sports activities such as football, basketball and tennis are held, it allows its students to have a good time in the campus. KYK Girls' Dormitory with a capacity of 500 students; with its extensive social facilities and the new and modern building, is 150 meters from the classrooms. Our vocational school continues its educational activities with the departments of Justice, Banking and Insurance, Logistics, Computer Programming, Office Management and Executive Assistant, Graphic Design, Occupational Health and Safety, Mechatronics, Health Institutions Management, Medical Laboratory Techniques, Medical Promotion and Marketing.

Hisarcık Vocational School

Our school, which is structured with the understanding of a national and contemporary Vocational School, has taken the responsibility of fulfilling its duties in making our students have a qualified profession and in making our country one of the most advanced and respected countries in the world in all areas of international competition. Our vocational school continues its educational activities with the departments of Banking and Insurance, Public Relations and Promotion, Human Resources Management, Occupational

Health and Safety, Logistics, Criminal Execution and Security Services, Land Registry and Cadastre.

Pazarlar Vocational School

Pazarlar Vocational School was opened under the Kütahya Dumlupınar University with the 14.02.1994 and 95-5332 numbered election of the Higher Education Executive Board. In 1994-1995 Education and training started with Fruit-Vegetable Processing and Food Technology programs in education. In the 2020/2021 academic year, Pazarlar Vocational School continues its education with Occupational Health and Safety, Food Technology, Machinery and Construction, Health Institutions Management, Health Information Systems Technician programs.

Simav Vocational School

Simav Vocational School aims to train intermediate manpower that will successfully serve the science, production, trade, industry and technology of our country, with an increasing momentum since its establishment. Our vocational school continues its educational activities with the departments of Electricity, Banking and Insurance, Logistics, Human Resources Management, Local Administrations, Health Tourism Management, Computer Programming, Interior Design, Laboratory Technology, Biomedical Device Technologies and Mechatronics.

Şaphane Vocational School

Şaphane Vocational school has a 210m<sup>2</sup> conference hall in the school building for social and cultural meetings and shows, and also a 25m<sup>2</sup> meeting room in the new service building. Apart from this, students meet their needs by always making use of the movie theater belonging to Şaphane Municipality. The School continues its educational activities with the departments of Public Relations and Publicity, Law Office Management and Executive Assistance, Banking and Insurance, Local Administrations and Social Services.

Tavşanlı Vocational School

The aim of Kütahya Dumlupınar University Tavşanlı Vocational School is to train professionals who are qualified and equipped to meet the requirements of the 21st century, in new and important fields of work where it is difficult to find professional staff trained with contemporary approaches in parallel with new technological developments. Our vocational school continues its educational activities with Computer Programming, Internet and Network Technologies, Office Management and Executive Assistant, Foreign Trade, Biomedical Device Technology, Machinery, Map Cadastre, Automotive Technology, Accounting and Tax Applications and Logistics departments.

**[1.2] Campus Setting**

Example of rural campus environment Kütahya Dumlupınar University Turkey

The campus area is located in a rural area with a high rate of forest cover. Evliya Çelebi Campus, which is the central campus of Kütahya Dumlupınar University, is established on an area of over 7,500 decares on the 10th kilometer of the Kütahya-Tavşanlı Highway. University rectorship; Graduate Education Institute; Faculty of Education, Faculty of Arts and Sciences, Faculty of Fine Arts, Faculty of Economics and Administrative Sciences, Faculty of Islamic Sciences, Kütahya Applied Sciences, Faculty of Architecture and Faculty of Engineering; School of Foreign Languages; Social facilities such as Martyr Petty Officer Ömer Halisdemir library, covered Turkish bazaar and guesthouses are located in Evliya Çelebi Campus. The academic structure of Kütahya Dumlupınar University consists of 1 institute, 11 faculties, 1 school, 14 vocational schools, 3 departments affiliated to the rectorate and 18 research centers. Kütahya is neighbor to metropolitan cities such as Balıkesir, Bursa, Eskişehir and Manisa in terms of its location. Due to its proximity to Eskişehir and Bursa, some university students can spend their weekends in these cities. Student clubs have an important place in the social life and culture at Kütahya Dumlupınar University. Student clubs endeavor to raise awareness among university students by organizing trips, interviews or social responsibility projects from time to time.

**[1.4] Total Campus Buildings Area**

Crown gate at Kutahya Dumlupınar University Evliya Çelebi Campus. The Rectorate building is also seen behind.

A view taken from the north of Kutahya Dumlupınar University Evliya Çelebi Campus: From left to right: Rectorate building, old rectorate building, Faculty of Economics and Administrative Sciences, Climbing wall, covered Turkish bazaar and pond; At the rear is the city of Kütahya.

It is the largest and central campus of Kütahya Dumlupınar University.

Located in the city center of Kütahya, Evliya Çelebi Campus has an area of over 7 thousand 500 decares. The campus is built on Ottoman-Seljuk architectural philosophy. There are also buildings belonging to Kütahya Health Sciences University in the campus.

There are three different entrance gates to Evliya Çelebi Campus. The main entrance of the campus is from the two large towers in the middle of the campus, the towers that shrink to the sides and the crown gate, which has arched entrances between these towers. In the campus area, a wide ring road was created

surrounding the campus and the vehicle and pedestrian circulation areas were largely separated from each other by preventing vehicles from entering the faculty blocks.

The Rectorate building is located across the entrance door, on the same line as the door. On both sides of the approximately 400-meter line between the crown gate and the Rectorate building are the dean's and teaching buildings of the Faculty of Arts and Sciences and the Faculty of Engineering. In addition, there are nine pools in the square between the entrance gate and the Rectorate building. Between the pools and the Rectorate building, there is the Dumlupınar Monument, which is the golden-colored counterpart of the Martyr Sancaktar Mehmetçik Monument, which is the symbol of the University, and the bust of Mustafa Kemal Atatürk.

In the southern part of the Rectorate building, Faculty of Islamic Sciences, Faculty of Economics and Administrative Sciences, Sociopark, Martyr Petty Officer Ömer Halisdemir Library, sports facilities, climbing wall, Health, Culture and Sports Department and its affiliated units, Advanced Technologies Center, Göl Park, MS Patient Education School, the covered Turkish bazaar, which houses the Graduate Education Institute, lodgings and dining hall, hairdressers, shopping center and post office, is located.

In the northern part of the Rectorate building, Faculty of Islamic Sciences, Faculty of Education, School of Foreign Languages, Foundation Mosque, 15 July Martyrs Park, student dormitories, Guesthouse, Private Kütahya Development Schools, Faculty of Architecture, Kütahya Faculty of Applied Sciences, Faculty of Fine Arts, Olympic Swimming Pool, Indoor There is a gym. Kütahya Dumlupınar University Museum is located in the Rectorate building.

Pond and Göl Park at Evliya Çelebi Campus of Kütahya Dumlupınar University

Zafertepe Student Dormitory, which belongs to KYK, is located in Evliya Çelebi campus.

**Additional evidence link:**

<http://web.dpu.edu.tr/sanaltur/>

**[1.5] The Ratio of Open Space to Total Area.**

Area Viewed from Satellite( Kütahya Dumlupınar University, Turkey)

Total area 7.541.371,54 m<sup>2</sup>

The ratio of open space to total area.

Formula:  $((1.5-1.6/1.5)*100\%) = (7.541.371,54-93.407,63)/7.541.371,54 * 100\%=98,7$

**[1.6] Total Area on Campus Covered in Forest Vegetation (meter<sup>2</sup>)**

Example of Total Forest Vegetation Area (Kütahya Dumlupınar University, Turkey)

Total area: 2.828.015 m<sup>2</sup>

Total distance/circumference: 89 km

### [1.7] Total Area on Campus Covered in Planted Vegetation

Area on campus covered in planted vegetation (Kütahya Dumlupınar University, Turkey)

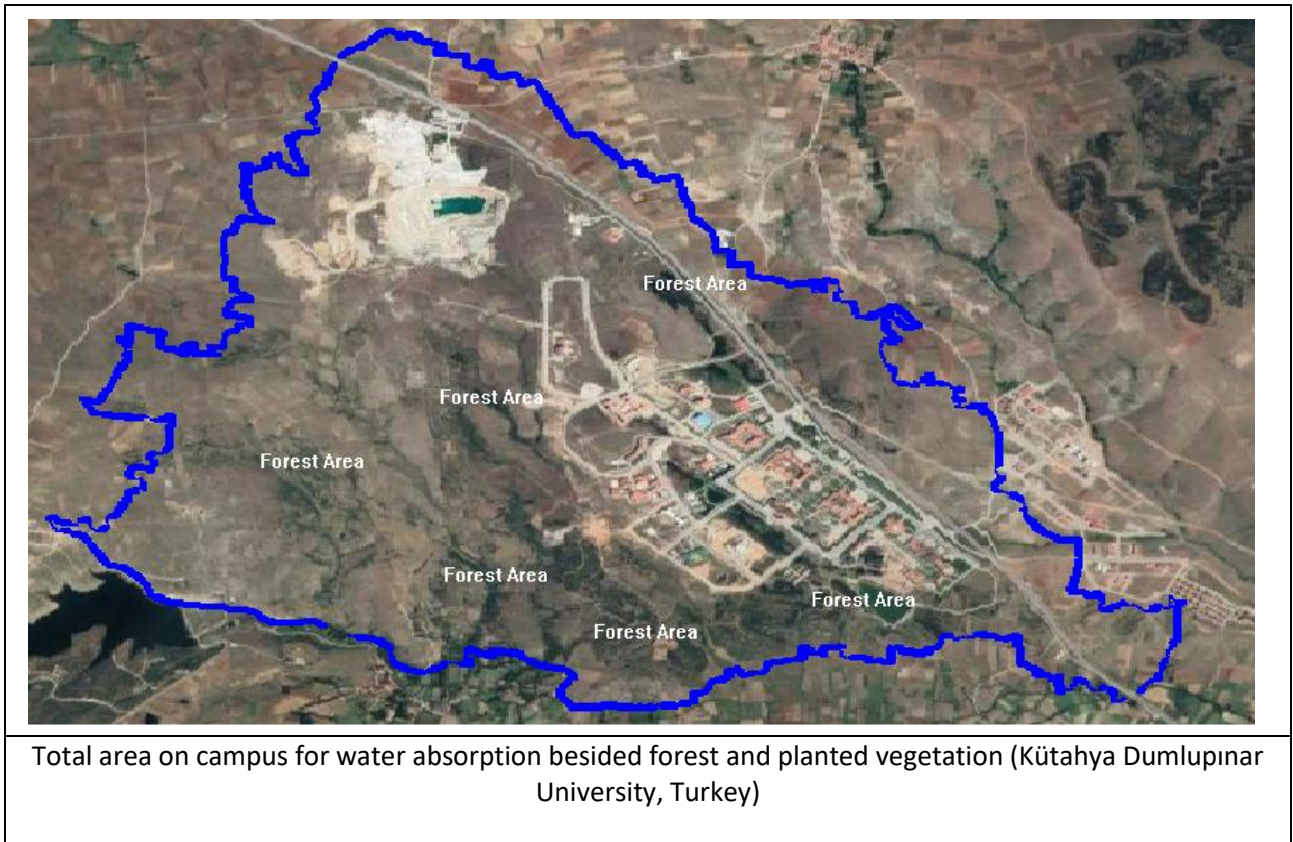

Area on campus covered in planted vegetation (Kütahya Dumlupınar University, Turkey)

**Total area on campus covered in planted vegetation** (Without including lawns, gardens, green roofs, indoor planting, vertical gardening) 829.551 m<sup>2</sup>.

**Total area on campus covered in planted vegetation/ Total campus area =  $829.551/7541372 = \% 11$**

**[1.8] Total Area on Campus for Water Absorption Besided Forest and Planted Vegetation**

Total area on campus for water absorption besided forest and planted vegetation = (2.828.015 forest + 829.551 planted vegetation + 3.535.968 water absorption) / 7.541.371,54 = 7.193.534 / 7.541.371,54 = % 95,38

### **[1.10] Percentage of Operation and Maintenance Activities During Covid-19 Pandemic**

During the Covid-19 epidemic, all physical areas of the university were checked, existing deficiencies were eliminated, and necessary modifications were made. A hygienic environment has been created by disinfecting all units of the university. As a result of the operations, all of the physical areas (100%) were maintained.

1.Total campus buildings area 361.516,15 m<sup>2</sup>

2.Total operated building 361.516,15 m<sup>2</sup>

Percentage building that operated and maintained 100 %

T.C.

**KÜTAHYA DUMLUPINAR UNIVERSITY  
TECHNICAL DEPARTMENT OF CONSTRUCTION WORKS**

#### **1.REPORT**

In the relevant period, all the physical areas of the university were checked, the existing deficiencies were corrected, and necessary modifications were made. A hygienic environment has been created by disinfecting all units of the university. As a result of the operations, all of the physical areas (100%) were maintained.

#### **2.2020 FURNITURE DECORATION WORKSHOP ANNUAL REPORT:**

In total, 239 fixtures were produced during the relevant period.

#### **3.MAINTENANCE AND REPAIR REQUESTS - YEAR 2020:**

In total, 239 fixtures were produced during the relevant period.

## 1.REPORT

### CONSTRUCTION

With the idea of building an acid workshop in the area used by the Construction Affairs Department as an archive, electricity warehouse, and construction warehouse and used as a solid waste site by the Administrative Financial Affairs Department, exploration was made with the delegation and the desired productions were determined as follows:

Closing the open passage between the two Workshops with drywall.

1. Completion of the shelves of the existing construction warehouse and delivery to the new laboratory to be established.
2. A new line is dug for the sewage drains of the reactors to be installed inside and the concrete top is covered with a grill (approximately 50 m).
3. Connecting to the manhole by drawing a new sewage line of approximately 100 m in order to discharge the drawn-in sewage line to the outside.
4. Construction of a concrete ramp at the entrance of the hangar for material loading.
5. A cost of approximately 10.000 TL is foreseen for these productions.

### ELECTRICITY

There is an energy requirement of 11 Kw in the building and lighting is required. For these, there is an energy panel and lighting in the building and additional lighting is required. Since caliper machines will be operated in the outer scapyard, energy supply line and installation panel and lighting are required. A total cost of approximately 8000 TL is foreseen for these.

## 2. 2020 FURNITURE DECORATION WORKSHOP ANNUAL REPORT:

### ENGINEERING FACULTY :

No	Type of Material Produced	Amount	Unit of Measure
1	Portable Table	4	Piece
2	Material Tool Cabinet	7	Piece
3	Platform Coating	6	Piece

- The faculty's wooden door barrel, lock, hinge, jamb and door handle malfunctions have been fixed.
- Wooden windows were repaired.

### FACULTY OF SCIENCE AND LITERATURE:

No	Type of Material Produced	Amount	Unit of Measure
1	Material Tool Cabinet	17	Piece
2	Locker Cabinet	11	Piece

- The faculty's wooden door barrel, lock, hinge, jamb and door handle malfunctions have been fixed.
- Wooden windows were repaired.

### FACULTY OF ISLAMIC SCIENCES:

No	Type of Material Produced	Amount	Unit of Measure
1	Office Table	1	Piece
2	Meeting Table	1	Piece

3	Material Tool Cabinet	1	Piece
4	Computer Table	1	Piece
5	Coffee Table	1	Piece
6	Paravan	40	Piece

-The faculty's wooden door barrel, lock, hinge, jamb and door handle malfunctions have been fixed.

#### **FACULTY OF ECONOMIC ADMINISTRATIVE SCIENCES:**

No	Type of Material Produced	Amount	Unit of Measure
1	Material Tool Cabinet	4	Piece

-The faculty's wooden door barrel, lock, hinge, jamb and door handle malfunctions have been fixed.  
- Wooden windows and amphitheaters were repaired.

#### **FACULTY OF EDUCATION:**

-The faculty's wooden door barrel, lock, hinge, jamb and door handle malfunctions have been fixed.  
-Board and chart assembly processes were done.

#### **FACULTY OF FINE ARTS :**

No	Type of Material Produced	Amount	Unit of Measure
1	Coffee Table	3	Piece
2	Office Table	1	Piece
3	Bookshelf	6	Piece
4	Shelf	1	Piece
5	Material Tool Cabinet	1	Piece
6	Stand	2	Piece
7	Paravan	2	Piece

-The faculty's wooden door barrel, lock, hinge, jamb and door handle malfunctions have been fixed. - 2 camellias were made

#### **STRATEGY DEVELOPMENT DEPARTMENT:**

-The department's wooden door barrel, lock, hinge, jamb and door handle malfunctions have been fixed.

#### **SOCIAL SCIENCES VOCATIONAL SCHOOL**

No	Type Of Material Produced	Amount	Unit of Measure
1	Office Table	2	Piece
2	Stand	12	Piece

-The vocational school's wooden door barrel, lock, hinge, jamb and door handle malfunctions have been fixed.

#### **KÜTAHYA TECHNICAL SCIENCES VOCATIONAL SCHOOL:**

No	Type of Material Produced	Amount	Unit of Measure
1	Office Table	1	Piece
2	Coffee Table	1	Piece
3	Portable Table	2	Piece

-The vocational school's wooden door barrel, lock, hinge, jamb and door handle malfunctions have been fixed.

#### **FINE ARTS VOCATIONAL SCHOOL**

-The vocational school's wooden door barrel, lock, hinge, jamb and door handle malfunctions have been fixed.

#### **FACULTY OF ARCHITECTURE :**

No	Type Of Material Produced	Amount	Unit of Measure
1	Material Tool Cabinet	1	Piece

-The faculty's wooden door barrel, lock, hinge, jamb and door handle malfunctions have been fixed.

#### **SIMAV TECHNOLOGY FACULTY:**

No	Type of Material Produced	Amount	Unit of Measure
1	Shelf	4	Piece
2	Material Tool Cabinet	3	Piece
3	Lectern	1	Piece
4	Showcase	2	Piece

#### **HIGH SCHOOL OF APPLIED SCIENCES:**

No	Type of Material Produced	Amount	Unit of Measure
1	Material Tool Cabinet	2	Piece
2	Shelf	2	Piece

-The faculty's wooden door barrel, lock, hinge, jamb and door handle malfunctions have been fixed.

#### **SCHOOL OF FOREIGN LANGUAGES**

-The school's wooden door barrel, lock, hinge, jamb and door handle malfunctions have been fixed.

#### **EMET VOCATIONAL SCHOOL**

No	Type Of Material Produced	Amount	Unit of Measure
1	Material Tool Cabinet	12	Piece

**GEDİZ VOCATIONAL SCHOOL:**

No	Type Of Material Produced	Amount	Unit of Measure
1	Sheelf	39	Piece

**PAZARLAR VOCATIONAL SCHOOL :**

No	Type Of Material Produced	Amount	Unit of Measure
1	Material Tool Cabinet	1	Piece
2	Coffee Table	1	Piece

**TECHNICAL DEPARTMENT OF CONSTRUCTION WORKS:**

No	Type of Material Produced	Amount	Unit of Measure
1	Office Table	1	Piece
2	Material Tool Cabinet	4	Piece

-The departments's wooden door barrel, lock, hinge, jamb and door handle malfunctions have been fixed.

**HEALTH, CULTURE AND SPORTS DEPARTMENT:**

No	Type Of Material Produced	Amount	Unit of Measure
1	Material Tool Cabinet	1	Piece

-The departments's wooden door barrel, lock, hinge, jamb and door handle malfunctions have been fixed.

**DEPARTMENT OF INFORMATION PROCESSING:**

No	Type Of Material Produced	Amount	Unit of Measure
1	Computer Table	4	Piece

-The departments's wooden door barrel, lock, hinge, jamb and door handle malfunctions have been fixed.

**LIBRARY DEPARTMENT:**

No	Type Of Material Produced	Amount	Unit of Measure
1	Material Tool Cabinet	8	Piece
2	Showcase	6	Piece

-The departments's wooden door barrel, lock, hinge, jamb and door handle malfunctions have been fixed.

**PERSONNEL DEPARTMENT:**

-The departments's wooden door barrel, lock, hinge, jamb and door handle malfunctions have been fixed.

**DEPARTMENT OF ADMINISTRATIVE FINANCIAL AFFAIRS:**

No	Type Of Material Produced	Amount	Unit of Measure
1	Locker Cabinet	1	Piece
2	Couch	6	Piece
3	Material Tool Cabinet	1	Piece

-The departments's wooden door barrel, lock, hinge, jamb and door handle malfunctions have been fixed.

#### **OCCUPATIONAL HEALTH AND SAFETY COORDINATOR (AFAMER):**

No	Type Of Material Produced	Amount	Unit of Measure
1	Shelf	1	Piece

-The departments's wooden door barrel, lock, hinge, jamb and door handle malfunctions have been fixed.

#### **DEPARTMENT OF STUDENT AFFAIRS:**

-The departments's wooden door barrel, lock, hinge, jamb and door handle malfunctions have been fixed.

#### **GENERAL SECRETARY :**

No	Type of Material Produced	Amount	Unit of Measure
1	Shelf	7	Piece
2	Material Tool Cabinet	2	Piece
3	Computer Table	1	Piece

-The secretariat's wooden door barrel, lock, hinge, jamb and door handle malfunctions have been fixed.

#### **CONTINUING EDUCATION CENTER :**

-The wooden door barrel, lock, hinge, jamb and door handle malfunctions of the center have been fixed.

#### **CIVIL DEFENSE:**

-The unit's wooden door barrel, lock, hinge, jamb and door handle malfunctions have been fixed.

#### **QUALITY COORDINATOR:**

-Coordinator's wooden door barrel, lock, hinge, jamb and door handle malfunctions have been fixed.

#### **FOREIGN STUDENTS UNIT:**

-The wooden door barrel, lock, hinge, jamb and door handle malfunctions of the unit were fixed.

#### **GRADUATE EDUCATION CENTER:**

-The wooden door barrel, lock, hinge, jamb and door handle malfunctions of the unit were fixed.

#### **ADVANCED TECHNOLOGIES CENTER:**

-The wooden door barrel, lock, hinge, jamb and door handle malfunctions of the center have been fixed.

#### **TOTAL MATERIAL PRODUCED**

No	Type of Material Produced	Amount	Unit of Measure
1	Bookshelf	12	Piece
2	Locker Cabinet	12	Piece
3	Office Table	4	Piece
4	Meeting Table	1	Piece
5	Office Table	2	Piece
6	Material Tool Cabinet	65	Piece
7	Stand	14	Piece
8	Sheet	5	Piece
9	Coffee Table	6	Piece
10	Shelf	49	Piece
11	Computer Table	6	Piece
12	Screen	48	Piece
13	Room	1	Piece
14	Folding Table	6	Piece
15	Cedar	6	Piece
16	Showcase	8	Piece

**TOTAL: 239 Piece**

### 3. MAINTENANCE AND REPAIR REQUESTS - YEAR 2020

#### CONSTRUCTION GROUP (construction, pvc, joinery, glass, paint works)

- Rectorate lodging roof repair
- Olympic Pool wall demolition works
- Repair of lodging B/2 andesite flooring
- Ceramic repairs of the toilets of the Faculty of Education
- lodging roof repairs
- Plate removal work in front of the bedesten
- Destroying the terrace of the Faculty of Education
- ceramic repairs of vocational school toilets
- Drilling work in the Rectorate
- Ahmet Yakupoğlu house roof repair
- Ceramic dismantling and repair works at the Faculty of Economics and Administrative Sciences
- Construction Works Workshop additional room construction
- The work of grouting the library toilets
- Concrete screeding of the lecture hall of the Faculty of Arts and Sciences
- Polycarbon roof repair of Altıntaş Vocational School
- F.E.F roof repair
- Wall demolition and renovation of football turf changing rooms in the Faculty of Engineering
- Making a manhole cover around the bedesten
- Joining the toilets of the Faculty of Business Administration
- Lodging C/3 roof repairs

- Making Camellia Roofs at the Faculty of Fine Arts
- Installing the disinfectant apparatus of the Rectorate
- Grouting to the B/3 toilets of the Lodgings
- Grouting student toilets in Kütahya Vocational School of Technical Sciences.
- Joining the rectorate toilets
- Placing concrete inside the lodging rear entrance door
- Making thresholds for the rooms requested in the Rectorate building
- Lodging roof repairs
- Repairing the roof of the Dentistry Building
- Repair of the roof of the lodging C/6 cellar
- Construction of disabled ramps in the Rectorate Car parks
- Making thresholds for the rooms requested in the Rectorate building
- Toilet repairs at the Faculty of Fine Arts
- Lodging B/2 roof repairs
- Making signage planting at the Faculty of Theology
- Installing a stop on the room doors in the Construction Works Building.
- Screw connection to the snow machine.
- Renovation of the roof of the gas station pumps.
- Repair of polycarbonate roof at Altıntaş Vocational School.
- Dismantling of warehouse shelves under the direction of administrative financial affairs.
- Making padlock apparatus for the rectorate document warehouse.
- The shelf installation of the administrative financial affairs warehouse was made.
- Construction of a platform for the boiler room in the Faculty of Economics and Administrative Sciences.
- The pontoon was dismantled.
- Delineator was installed on the workshop road.
- The main entrance door of the Faculty of Economics and Administrative Sciences was repaired.
- Making a railing on the roof of the toilet ventilation in the Faculty of Engineering.
- A drain cover was made to the pond.
- A wheeled carriage with five shelves was built for the library.
- Making cabins for the valves of the hobby gardens.
- Making a wheeled metal stand in the Faculty of Islamic Sciences.
- Making a warehouse shelf for the School of Foreign Languages.
- A door has been made to the front of the hobby garden of the residences.
- A shelf was built in the warehouse of the Faculty of Engineering.
- The entrance gate of the Faculty of Economics was renovated.
- Delinators in front of the Faculty of Arts and Sciences were dismantled.
- Mimarlık Fak.giden yaya yoluna araç girişini engellemek için zincirli bariyer yapıldı.
- A drain cover was made in the pond in front of the mosque.
- The Faculty of Fine Arts sign was removed.
- Germiyan Campus wire fence was repaired.
- 1 iron table was built for the Faculty of Architecture.
- In the Rectorate building, the metal of the partition wall was cut and opened intermittently.
- An iron shelf was built for the Construction Works Technical Department.
- The boiler room door was repaired in the Construction Works Technical Department.
- The concrete rain channels in front of the covered bedesten were covered with a checkered sheet for the disabled to pass.
- Kitchen counter cuts were made in the lodgings.

- The seats on the terrace of the Rectorate building were repaired.
- Delineator was installed on the lower entrance road of the university.
- Kasis was installed on the lower entrance road of the university.
- Fixing was done for oxygen cylinders in the mining laboratory of the Faculty of Engineering.
- The two entrances around the pond were installed by making a barrier.
- Fireplace cover was made for the lodging.
- Grill and ashtray were made for the fireplace in the lodging.
- Lodging C\_5 roof over the rear entrance door was repaired.
- A name sign was installed on the Mutaflar Mansion of our university.
- Divinity signposts were installed.
- Location A-4 plumbing malfunctions were made.
- Public administration window malfunction.
- The roof over the lodging A-6 rear entrance door was repaired.
- Graduate education center entrance door lock malfunction.
- Graduate education center student affairs and personnel affairs door and window malfunctions were made.
- A material room was built in the Disaster and Emergency Center.
- The roof over the Lodging C-3 rear entrance door was repaired.
- career and graduate coordinator painting works were done.
- Press and Public Relations service aluminum window repairs were made.
- Replacing the broken glass in the postgraduate education center directorate.
- Installing locks on the windows of the Continuing Education Center.
- Library lending unit collapsed suspended ceiling repaired.
- Continuing Education Center aluminum door repair and projection feet installation.
- The lock of the chemistry laboratory door in the Faculty of Arts and Sciences was repaired.
- The roof over the Lodging C-1 rear entrance door was repaired.
- Rectorate protocol entrance ladder was repaired.
- F.E.F B block marble repairs were made.
- Rectorate 2nd floor toilet repairs were made.
- Repairs were made to the male student toilets at the Faculty of Economics and Administrative Sciences.
- Faculty of Islamic Sciences barrier concrete was repaired.
- The lock on the entrance door of the Finance Department was repaired.
- Lodging D-4 mosquito net installation.
- The direction signs in the campus were installed instead of the fallen ones.
- AFAMER door hydraulics repaired.
- The tile joint was repaired on the second floor of the Faculty of Fine Arts.
- Library room window sill repaired.
- Faculty of Engineering Aluminum railings were repaired.
- The hydraulic repair of the Continuing Education Center entrance door was made.
- Aluminum door hinge failure was made at the Faculty of Fine Arts.
- Rectorate tea house door lock was changed.
- IT department glass repairs were made.
- Rectorate protection security room window malfunction.
- Germiyan Campus perimeter wall wire repairs were made.
- Rectorate vehicle entrance ramp edge concrete renovation was done.

- The broken bolts on the entrance door of the Finance House have been replaced. - The aluminum door of the Business Building entrance door was repaired. -Requests from DÖF forms were made.

**[1.11] Campus Facilities for Disable, Special Needs and or Maternity Care**

Kütahya Dumlupınar University has made the necessary arrangements and taken measures to facilitate the lives of disabled individuals (including students, academic and administrative staff) and to enable them to continue their lives actively. In this context;

1. Necessary arrangements and improvement studies are available at the University to facilitate the life of disabled individuals.
2. There is a Disabled Student Unit that carries out its activities within the university.
3. As a result of the arrangements made to facilitate the lives of disabled individuals, 14 orange flags were awarded within the scope of the Higher Education Council's Barrier-Free University Flag awards.
4. The Presidency of the Council of Higher Education made necessary improvements for students with special needs studying at our University, in the presentations, course preparations and lectures by raising awareness for our disabled students while education in distance education continues.

**1. Necessary arrangements and improvement studies are available at the University to facilitate the life of disabled individuals.**

Necessary arrangements have been made to facilitate the life of disabled individuals at the university. Parking spaces are available for disabled individuals to park their vehicles at the university. There is also a toilet for disabled people. Again, there is an audio exit guidance system for the convenience of disabled individuals.

<p>Parking area for disabled individuals</p>	<p>Alarm system</p>

Audio exit guidance

Ramps and guidance blocks suitable for physically disabled pedestrians, Kütahya Dumlupınar University

## 2. There is a Disabled Student Unit that carries out its activities within the university.

Disabled (Disabled) Students Unit; In accordance with the 8th article of the "Higher Education Institutions Consultation and Coordination Regulation for the Disabled", published in the Official Gazette dated 20 June 2006 and numbered 26204 of the Presidency of the Council of Higher Education, on 27 September 2006, with the approval of the Rectorate No. 165 under the Department of Health, Culture and Sports. has been established.

The purpose of T.R Kütahya Dumlupınar University Disabled Student Unit is; Our aim is to identify the difficulties that students with disabilities who are already registered at our university or who are registered for the new academic year and /or who will come to our university in the coming years may face due to their obstacles during their education life, city-campus transportation and dormitory life, to determine what needs to be done and to help provide a higher education life free from obstacles.

One of the studies carried out for this purpose is the implementation of the Disabled Guidance and

Information System (Navigation) project (<https://eob.dpu.edu.tr/tr/index/sayfa/6120/engelli-yonlendirme-bilgilendirme-sistemi-navigasyon> , <https://eob.dpu.edu.tr/tr/index/sayfa/3497/ios-platformu-icin-navigasyon-projesi> )

In addition, individuals with disabilities are informed about education-training or social activities through the unit's social media accounts.

**3. As a result of the arrangements made to facilitate the lives of disabled individuals, 14 orange flags were awarded within the scope of the Higher Education Council's Barrier-Free University Flag awards.**

Within the scope of the Higher Education Council's Barrier-Free University Flag awards, units that win an award in the field of accessibility in space are given an orange flag, units that win an award in the field of accessibility in socio-cultural activities, and a green flag is given to units that are awarded in the field of accessibility in education. Our University ranks first with 14 Flags in the Barrier-Free University Awards organized by the Higher Education Council. ([Engelsiz Birim Ödülleri DPU.docx](#)), ([Engelsiz Öğrenci Birimi YÖK Ödül Haberi.docx](#)), (<https://engelsiz.yok.gov.tr/Sayfalar/Haberler/2020/kutahya-dumlupinar-universitesi-neengelsizbayrak.aspx>, <https://eob.dpu.edu.tr/tr/index/slide/5938/05-mayis-2021-engelsiz-universite-bayrak-odulleri>). The flags we have received within the scope of the Barrier-Free University Flag Awards are an indication that the necessary arrangements have been made to facilitate the lives of individuals with disabilities at the university.

**2020 Barrier-Free University Flag Awards**  
**Orange Flag (Faculty/Vocational School Accessibility in Space)**

1- Evliya Celebi Campus	Blue Flag
2- Evliya Celebi Campus	Orange Flag
3- Bedesten	Orange Flag
4- Disabled Student Unit	Orange Flag
5- Faculty of Arts and Sciences	Orange Flag
6- Hüsnü Özyeğin Dormitory for Girls	Orange Flag
7- Indoor Sports Hall	Orange Flag
8- Guesthouse	Orange Flag
9- Olympic Swimming Pool	Orange Flag
10- Faculty of Engineering	Orange Flag
11- Rectorate Building	Orange Flag
12- Martyr Ömer Halisdemir Library	Orange Flag
13- Tavsanlı Faculty of Applied Sciences	Orange Flag
14- School of Foreign Languages	Orange Flag

**5. In line with the request of the Council of Higher Education, necessary improvements were made in the course presentations, course preparations and lectures for the students with special needs studying at our University, by raising awareness for our disabled students while the distance education continues.**

Demands from students with disabilities have been taken into account, based on the letter of the Council of Higher Education regarding students with disabilities in distance education ([YÖK,Uzaktan Eğitimde Engelli Öğrenciler.pdf](#)) . In line with the incoming requests, decisions were taken to deliver homework to students with disabilities instead of the exams in the relevant term exams ([ara sınavların görme engelli öğrencilere ödev olarak uygulanması.pdf](#)).

### [1.12] Security and Safety Facilities

Equipment such as a university panic button and fire extinguisher are available, trained personnel have been appointed within the scope of the security infrastructure, and necessary arrangements have been made regarding occupational health and safety. Due to the presence of security infrastructure and security facilities, the response time in case of any accident, fire, crime, natural disaster is "more than 10 minutes."

Closed Circuit Television (Security Cemara)

Security Camera

Fire Alarm

Fire Extinguisher

Security Personal

In order to ensure the security of the campuses of our university, the Security Unit, which works to ensure the duty and working conditions of the Private Security Officers employed within the scope of the Private Security Service procurement, and to perform the coordination task by making the necessary inspections, carries out its activities within the framework of the "Directive on the Execution of Security Services of Kütahya Dumlupınar University". As stated in the work flow chart of the private security organization responsible for the execution of security services, in case of an event that may create a security problem in the campus, the event is intervened as soon as possible.

In addition, in arranging the procedures and principles of ensuring the occupational health and safety of all personnel working in Kütahya Dumlupınar University units, subcontractors, employees with service procurement method, trainee and student status, and improving existing health and safety conditions; Occupational Health and Safety (OHS) Practice Guide (<https://isg.dpu.edu.tr/tr>) by the Occupational Health and Safety Coordinatorship (<https://isg.dpu.edu.tr/tr>) in order to guide employers, employer representatives, OHS professionals, those assigned on OHS issues and employees ([https://birimler.dpu.edu.tr/app/views/panel/ckfinder/userfiles/143/files/dokumantasyon/S\\_SAGLIGI\\_VE\\_GUeVENL\\_G\\_UYGULAMA\\_KILAVUZU.pdf](https://birimler.dpu.edu.tr/app/views/panel/ckfinder/userfiles/143/files/dokumantasyon/S_SAGLIGI_VE_GUeVENL_G_UYGULAMA_KILAVUZU.pdf)) has been published.

### [2.3] Renewable Energy Sources in Campus

Solar energy is utilized by means of tools such as solar energy panels, synergy glasses, street lighting within the campus boundaries of Kütahya Dumlupınar University.

Approximate Obtained from Street Lighting 65.000 Kwh

Synargy Glass Heat Approx. 5.000 Kwh

Natural Lighting 10.600 Kwh

Total: 80.600 Kwh

5Kwh Solar PV energy system connected to campus electrical grid. (Dumlupınar University, Turkey)

Faculty of Islamic Sciences Synergy Glass (Dumlupınar University, Turkey)

Solar panels (Dumlupınar University, Turkey)

Foreign languages Synergy Glass

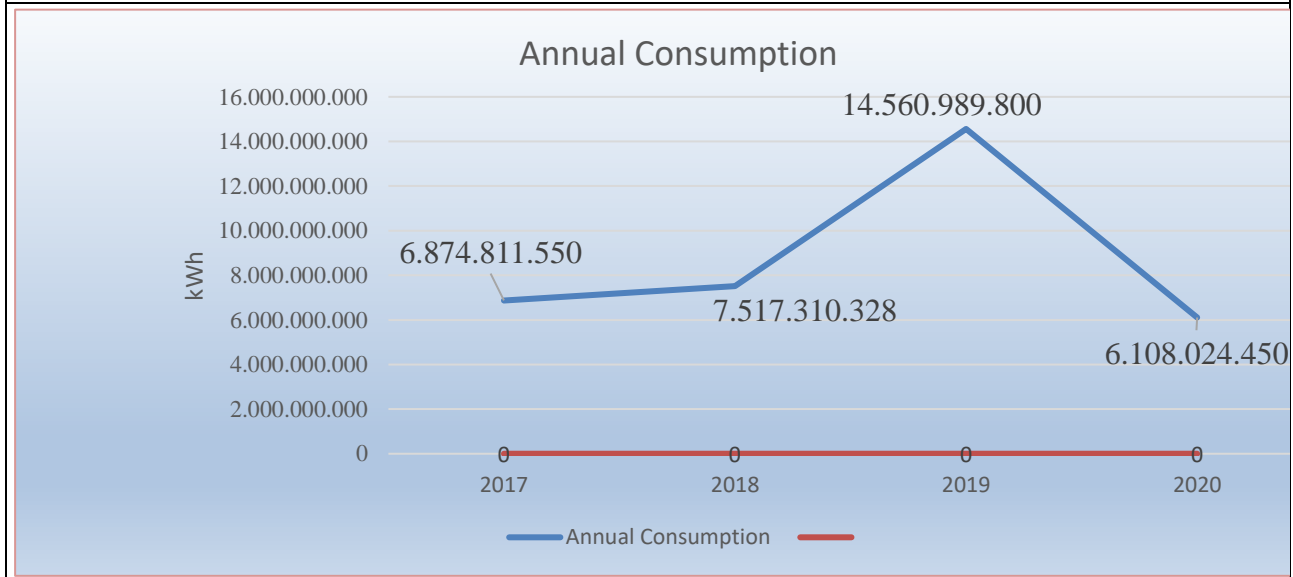

Congress Cultural Center Synergy Glass (Dumlupınar University, Turkey)

**[2.4] Electricity Usage per Year (in Kilowatt hour)**

Monthly total electricity consumption (Kwh) of Evliya Celebi Campus for one year, Kutahya Dumlupınar University, Turkey.

Trend in annual total electricity consumption (Kwh) of Evliya Celebi Campus, Kutahya Dumlupınar University, Turkey.

$$E_t = 6108024450 \text{ Kwh}$$

Total Campus Population = 1331

$$E_n = \frac{6.108.024.450}{1331} = 4.589.049 \text{ Kwh}$$

The total electricity usage of Evliya Celebi Campus in 2020 is **4.589.049** Kwh. On the main campus area of Kütahya Dumlupınar University; electricity is used for lighting, heating and laboratory appliances.

## [2.5] Ratio of Renewable Energy Production Divided By Total Energy Usage per Year

Solar energy is utilized by means of tools such as solar energy panels, synergy glasses, street lighting within the campus boundaries of Kütahya Dumlupınar University.

Approximate Obtained from Street Lighting 65.000 Kwh  
Synergy Glass Heat Approx 5.000 Kwh  
Natural Lighting 10.600 Kwh  
Total: 80.600 Kwh

5Kwh Solar PV energy system connected to campus electrical grid.

Faculty of Islamic Sciences Synergy Glass

Solar panels

Foreign languages Synergy Glass

Congress Cultural Center Synergy Glass (Kütahya Dumlupınar University, Turkey )

No	Renewable Energy	Production (in Kwh)
1	Approximate Obtained from Street Lighting	65.000
2	Synargy Glass Heat Approx	5.000
3	Natural Lighting	10.600
	<b>Total</b>	<b>80.600</b>

$80.600 / 6.108.024.450$  (Electricity usage) = 0,0013 %

## [2.6] Elements of Green Building Implementation as Reflected in all Construction and Renovation Policies

In our Central Campus, there are buildings that benefit from sunlight through large windows, glass ceilings and polycarbonate roofs as a green building application. There are also green areas in the building. Therefore, there are more than 3 green building applications within DPU.

Faculty of Economics and Administrative Sciences Building (Kütahya Dumlupınar University, Turkey )

Library and Documentation Department Building (Kütahya Dumlupınar University, Turkey )

Faculty of Science and Letters; Physics, Chemistry and Archeology Departments Building  
(Kütahya Dumlupınar University, Turkey )

Bedesten Dining Hall and Engineering Faculty Building (Kütahya Dumlupınar University, Turkey )

Rectorate Building, Quality Coordinator (Kütahya Dumlupınar University, Turkey )

Rectorate Building, Quality Coordinator (Kütahya Dumlupınar University, Turkey )

Faculty of Islamic Sciences (Kütahya Dumlupınar University, Turkey )

In the Central Campus, there are buildings that benefit from daylight as green building applications. In the Faculty of Islamic Sciences, Quality Coordinator and the Faculty of Applied Sciences, sunlight was used by using large area glasses. There is a glass ceiling in the Library and Documentation Department and the Faculty of Economics and Administrative Sciences. There are green areas on the indoor floor. Banana trees, palm trees and various plants are grown on the green ground of the Library and Documentation Department. In the Faculty of Science and Letters; In Physics, Chemistry and Archeology Departments, there are sun-exposed Polycarbonate roofs. The Faculty of Engineering has four sun-facing Polycarbonate roofs. Girls' Dormitory, The Faculty of Islamic Sciences, School of Foreign Languages, Rectorate Building and Guest House have green building applications.

## [2.7] Greenhouse Gas Emission Reduction Program

Kütahya Dumlupınar University implements programs within Scope 1, Scope 2 and Scope 3 to reduce greenhouse gas emissions. It is possible to summarize the implemented programs as follows:

1. In order to reduce fuel burning by the transportation vehicles owned by the university (Scope 1), electric vehicles were purchased by the university and charging units were provided to charge these vehicles.
2. In order to reduce the greenhouse gas emissions (Scope2) arising from the electricity purchased and consumed by the university, electricity is produced from solar energy, which is a renewable energy source, by placing solar energy panels in certain places on the campus.
3. In order to reduce the greenhouse gas emissions caused by transportation within the campus (Scope3), an area has been allocated for bicycle paths, and bicycles owned by the university have been made available to academic and administrative staff and students.

Electric Vehicle Charging Station (Dumlupınar University, Turkey)

Bicycle Roads inside Kütahya Dumlupınar University Central Campus (Dumlupınar University, Turkey)

Case Zero Emission Electric Bicycle  
(Kütahya Dumlupınar University, Turkey)

## [2.8] The Total Carbon Footprint (CO<sub>2</sub> emission in the last 12 months, in metric tons)

### Option 2: Recommended by UI GreenMetric

#### CO<sub>2</sub> (electricity)

$$\begin{aligned} &= \frac{\text{electricity usage per year (kWh)}}{1000} \times 0,84 \\ &= \frac{3871,79316 \text{ kWh}}{1000} \times 0,84 \\ &= 3854,80116 \text{ metric tons} \end{aligned}$$

#### CO<sub>2</sub> (bus)

$$\begin{aligned} &= \frac{\text{number of shuttle bus in your university} \times \text{total trips for shuttle bus service each day} \times \text{approximate travel distance of vehicle each day inside campus only (KM)} \times 240}{100} \times \\ &0,01 \\ &= 8,64 \text{ metric tons} \end{aligned}$$

#### CO<sub>2</sub> (cars)

$$\begin{aligned} &= \frac{\text{number of cars entering your university} \times 2 \times \text{approximate travel distance of vehicle each day inside campus only (KM)} \times 240}{100} \times 0,02 \\ &= 2,592 \text{ metric tons} \end{aligned}$$

#### CO<sub>2</sub> (motorcycle)

$$\begin{aligned} &= \frac{\text{number of motorcycle entering your university} \times 2 \times \text{approximate travel distance of vehicle each day inside campus only (KM)} \times 240}{100} \times 0,01 \\ &= 5,76 \text{ metric tons} \end{aligned}$$

#### CO<sub>2</sub> (total)

$$= 3871,79316 \text{ metric tons}$$

Example of Total Carbon Footprint (UI GreenMetric)

Electricity consumption is only taken for the main campus, as other data are for the main campus.

The daily on-campus distance covered for each expedition is 5 km. was taken as.

For each vehicle, twice the distance (1.5 km) from the main campus entrance to the rectorate was taken as the average daily distance traveled.

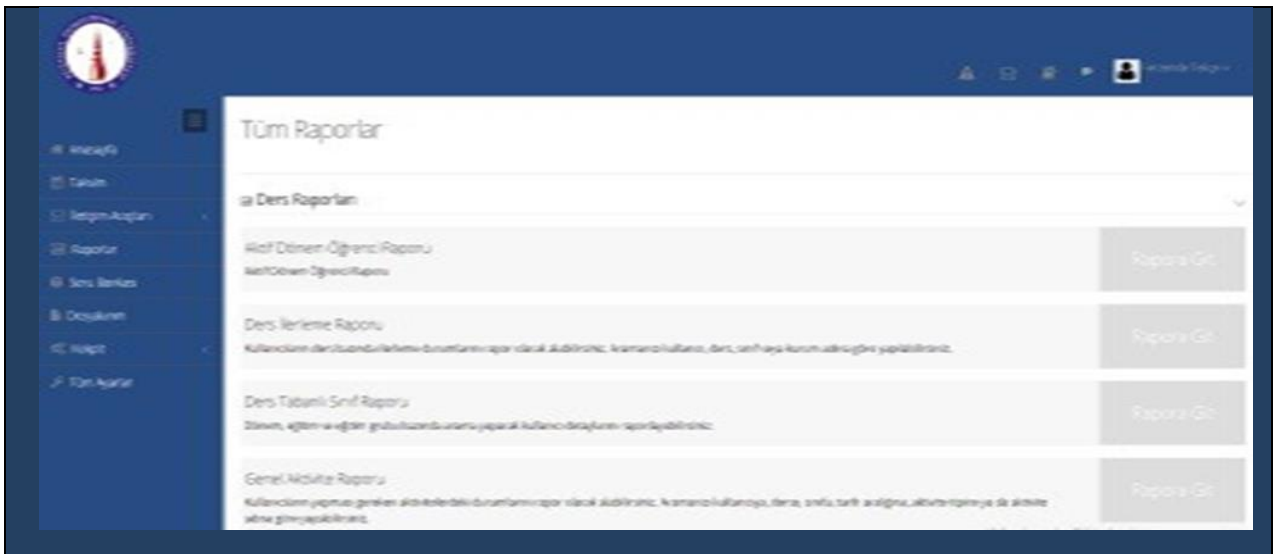

## [2.9] Number of Innovative Program(S) During Covid-19 Pandemic

Innovative programs such as ventilation and learning management system were implemented during the Covid-19 pandemic. Classrooms and rooms within the campus are ventilated using high quality air filters. In addition, the distance education system ALMS - OYS system is used in order to ensure that the education and training activities are carried out in the highest quality during the Covid-19 process.

Air Quality (Fans) (Dumlupınar University, Turkey)

Monitoring reports regarding distance education policies are obtained from software called ALMS and Perculus, which belong to Advacity company for distance education within the Distance Education Center of our university. Sample reports of the system are displayed below.

Distance Education System Reports-1 (Kütahya Dumlupınar University, Turkey)

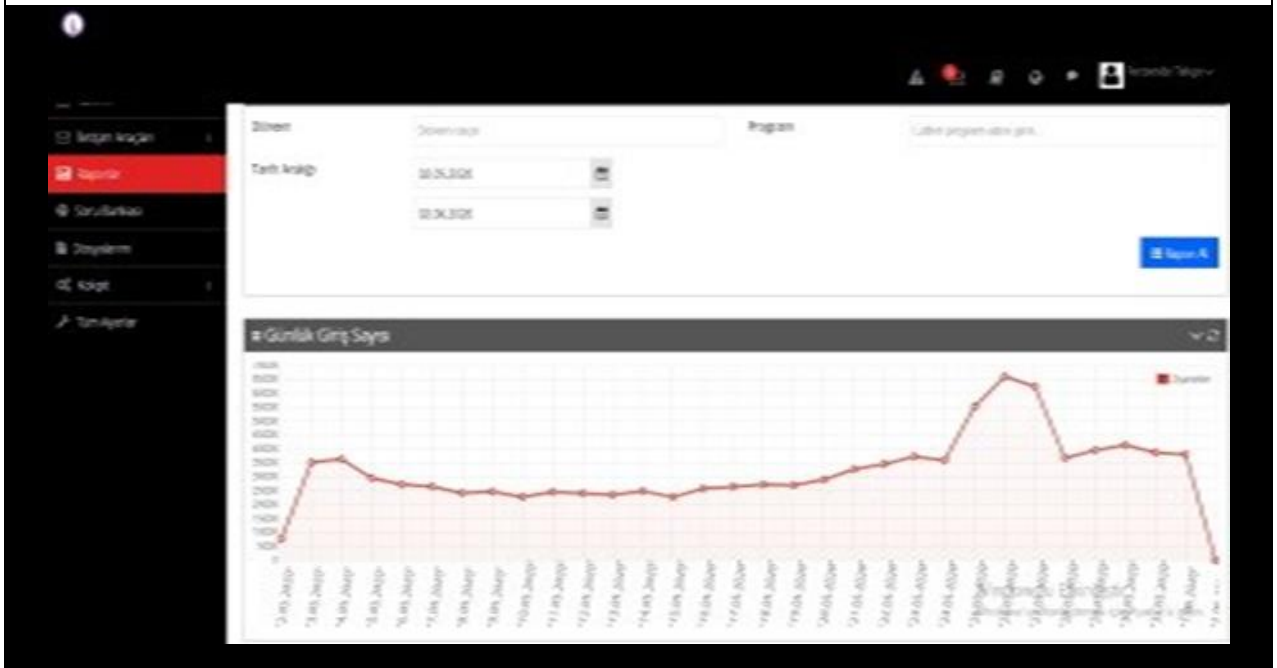

Distance Education System Reports-2 (Kütahya Dumlupınar University, Turkey)

Distance Education System Reports-3 (Kütahya Dumlupınar University, Turkey)

### Distance Education System Reports-4 (Kütahya Dumlupınar University, Turkey)

Distance Education System Usage Statistics-1 (Kütahya Dumlupınar University, Turkey)

Distance Education System Administrator Interface (Kütahya Dumlupınar University, Turkey)

The progress of the instructors and the compliance of the course content with our policy can be monitored in detail through the course reports and portal reports options in the distance education system reporting tools used. Updates are made in the application, taking into account the monitoring results and stakeholder opinions.

There is an integrated homework delivery system and exam module in the Learning Management System used by our university and serving at <https://oys.dpu.edu.tr>. A sample screenshot of the homework application in the system is given below:

A screenshot of a quiz application interface. The main area shows a question: "1- Complete the sentence with the correct form of the verb in brackets. Example: He has (live) in London. What kind of time \_\_\_\_\_ you \_\_\_\_\_ (live)?" Below the question is a text input field. To the right, a circular progress indicator shows "29/100" and "Kalan Soru". At the bottom, there are navigation buttons: "< Gecmiş", "1/10", and "Sonraki >".

## [2.10] Impactful University Program(S) on Climate Change

Kütahya Dumlupınar University provides education, training materials and activities for the surrounding communities and at the national level in order to reduce the risks related to climate change. It is possible to express the studies carried out by Kütahya Dumlupınar University to reduce the risks related to climate change as follows:

1. Electricity generation through solar energy panels
2. Projects on renewable energy sources
3. to plant saplings (tree planting) activities
4. Fishing activities in the ponds
5. Work done by student clubs

Electricity Generation from the Sun, Engineering Faculty (Kütahya Dumlupınar University, Turkey )

Examples of **Impactful university program** (Kütahya Dumlupınar University, Turkey )

### 1.ELECTRICITY GENERATION FROM THE SUN,

Some units have solar panels ; Engineering faculty and Congress Cultural Center. In addition, it is planned to install a solar power plant on the roofs of the buildings belonging to the university. The relevant article is given below:

### [3] Waste (WS)

#### [3.1] Recycling Program for University Waste

Kütahya Dumlupınar University has adopted policies to encourage staff and students to include waste in recycling, and has implemented some practices that will increase the efforts of staff and students in this regard.

In this context, some studies have been carried out ;

1. To ensure that organic and non-organic wastes are collected in separate boxes,
2. To ensure that packaging wastes are collected in separate boxes in the form of plastic, paper, metal, glass, etc.,
3. To provide a compost machine at the university that converts organic waste into fertilizer,
4. To introduce document shredders to ensure the recycling of paper waste,
5. To ensure that correspondence is carried out over DPU EBYS (Dumlupınar University Electronic Document Management System) within the scope of the Paper and Plastic Use Reduction Program and to make DPU OBS (Dumlupınar University Student Information System) available to students, academic and administrative staff,
6. By organizing a zero waste themed poster contest
7. By organizing conferences on “Zero Waste in Businesses” in order to establish zero waste awareness among students and staff

### [3.2] Program to Reduce the Use of Paper and Plastic on Campus

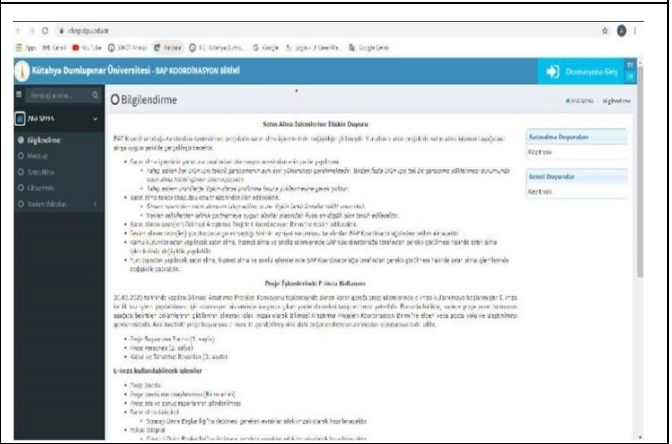

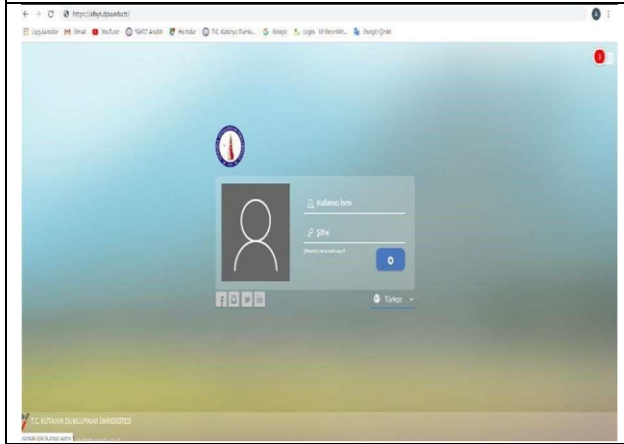

Kütahya Dumlupınar University has carried out the following studies to reduce the use of paper and plastic on campus:

1. DPU uses OBS (DPU student information system).
2. DPU uses Distance Education System
3. DPU has ensured the use of EBYS (Electronic Document Management System) by the personnel.
4. DPU uses the Scientific Research Projects System.
5. It has taken the necessary measures to ensure that packaging wastes are collected in separate boxes in the form of plastic, paper, metal, glass, etc.
6. In order to ensure the recycling of paper waste, document shredders were put into use. DPU works with Has Erdoğanlar Company for the processing of inorganic wastes.

1-Student information system

2-Learning management system (distance education system)

3-Electronic document management system.

4-Scientific research projects system

Example of Program to Reduce the Use of Paper and Plastic in Campus (Kütahya Dumlupınar University, Kütahya)

1. Thanks to the student information system, while students can learn their own exam results, the graduation information of the students and the results of their course registrations can be seen in the system and thus paper waste is prevented.
2. Thanks to the learning management system, faculty members can upload distance education course videos and course related documents to the system and make online exams, students can access these documents and these course videos, and paper waste is prevented.
3. Thanks to the electronic document management system, notices and announcements, official correspondence within the university can be made without wasting paper.
4. Thanks to the scientific research projects system, lecturers can apply for scientific projects. In this way, paper waste caused by official correspondence is prevented.

Compost Machine

Paper Cutter

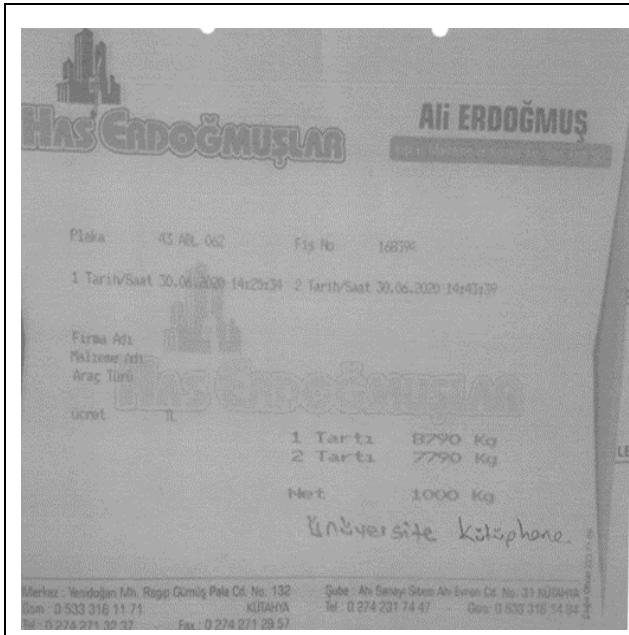

Recycling Program Example for University Waste  
Kütahya Dumlupınar University

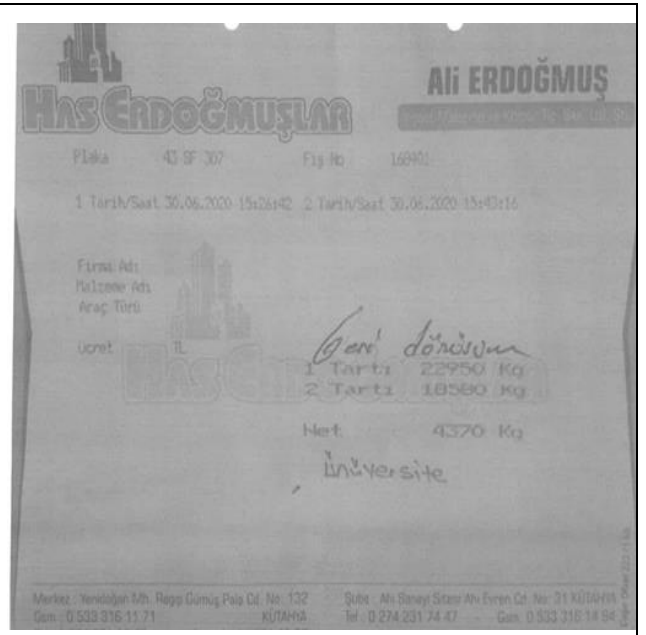

Example of Inorganic Waste Treatment (Kütahya  
Dumlupınar University, Turkey)

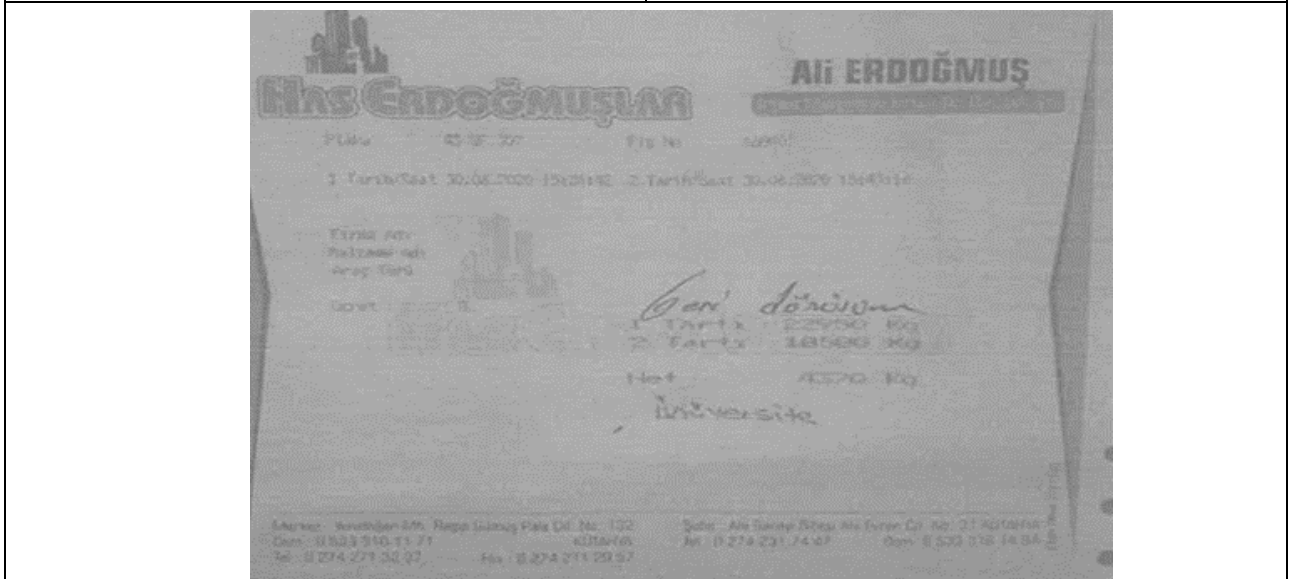

Organic wastes and inorganic wastes at the university are collected in separate trash bins and organic wastes are recycled by the university's own facilities. Inorganic wastes, on the other hand, are first collected in the storage areas and then collected and recycled by Kütahya municipality.

Library

Rectorate

Working with Has Erdoğanlar company for the processing of inorganic wastes

### [3.3] Organic Waste Treatment

Kütahya Dumlupınar University, in order to ensure the recycling and processing of organic wastes,

1. It has a compost machine that converts organic waste into fertilizer.
2. A contract has been signed for the collection and recycling of waste vegetable oils with Kütahya Municipality Directorate of Cleaning
3. It has established a Zero Waste Management System in accordance with the Zero Waste Regulation and has been entitled to receive a Zero Waste Certificate.

As a result of these studies carried out by our University for the processing of organic wastes, organic wastes are partially processed (>50%-75% processing).

1. University has a compost machine which transforms the organic wastes into fertilizers.

Compost Machine

2.DPU has made a contract with the Kütahya Municipality Directorate of Cleaning Works for the collection and recycling of waste vegetable oils.

DUMLUPINAR ÜNİVERSİTESİ REKTÖRLÜĞÜ İDARİ VE MALİ İŞLER DAİRE  
BAŞKANLIĞINA

06.06.2015 tarih ve 29378 sayılı Resmî Gazete’de yayımlanan Bitkisel Atık Yağların Kontrolü Yönetmeliği gereği Belediyemiz ve lisanslı bitkisel atık yağ geri kazanım firması Kolza Biodizel ve Petrol Ürünleri San. ve Tic. A.Ş. arasında 17/10/2019 tarihinde Bitkisel Atık Yağların Toplanması İş Sözleşmesi yapılmıştır. Bu sözleşme kapsamında, belediyemiz yetki alanı içinde atık yağların, atık yağ üreticilerinden toplanmasında tek yetkili, Kolza Biodizel ve Petrol Ürünleri San. ve Tic. A.Ş. firmasıdır.

Kurumunuz birimlerinden kaynaklanan bitkisel atık yağların geri kazanımı için lisanslı bitkisel atık yağ firması ile sözleşme yapmanız ve bitkisel atık yağlarınızı Çevre ve Şehircilik Bakanlığı’nın MOTAT sistemi üzerinden taşımanız gerekmektedir.

Bilgilerinize rica ederim.

Abdullah DAMCI  
Belediye Başkan Yardımcısı  
*e-İmza*

Ek : 1 Adet Sözleşme

## BİTKİSEL ATIK YAĞLARIN TOPLANMASI İŞİ SÖZLEŞMESİ

### MADDE 1 - SÖZLEŞMENİN TARAFLARI:

İşbu sözleşmenin tarafları T.C. KÜTAHYA BELEDİYESİ (sözleşmede BELEDİYE olarak anılacaktır) ile T.C. Çevre ve Şehircilik Bakanlığı'ndan lisanslı Bitkisel Atık Yağ Geri Kazanım Firması KOLZA Biodizel ve Petrol Ürünleri San. ve Tic. A.Ş. (Sözleşmede TOPLAYICI olarak anılacaktır) arasında yapılmıştır.

### MADDE 2 - TARAFLARA İLİŞKİN BİLGİLER:

#### BELEDİYE

Adres: Gaybiefendi Mahallesi Atatürk Bulvarı No:83 KÜTAHYA

Tel No:0 850 283 43 43

Faks No: 0 274 283 43 43

Elektronik Posta Adresi:temizlik@kutahya.bel.tr

#### TOPLAYICI

Adres: Kimyacılar Organize Sanayi Bölgesi Melek Aras Bulvarı Aromatik Cadde No:31 Tuzla/İSTANBUL

Tel No: 0216 593 24 90 (Fabrika)

0216 593 24 91 (Fabrika)

Elektronik Posta Adresi:kolza@kolza.com.tr

### MADDE 3 -SÖZLEŞMENİN AMACI:

Bu sözleşmenin amacı, Bitkisel Atık Yağların Kontrolü Yönetmeliği gereğince Kütahya Belediyesi yetki sınırları içinde, iş yerlerinden, eğitim kurumlarından ve konutlardan Bitkisel Atık Yağların toplanması amacıyla BELEDİYE ve TOPLAYICI nın birlikte hazırlayacakları plan ve program doğrultusunda atık bitkisel yağların toplanması yönetiminin sağlanmasıdır.

İlgili kurum ve kuruluşlara verilmek üzere, atık bitkisel yağların alındığı yeri, tarihi, miktarı vb. bilgiler ile toplanan atıkların nerede ve nasıl değerlendirildiğine ilişkin sağlıklı denetimin yapılabilmesi ve kayıt altına alınabilmesi için, atık bitkisel yağların, BELEDİYE'nin sözleşme yaptığı lisanslı firmaya verilmesine yönelik çalışmalar yapmaktır.

### MADDE 4-İŞİN TARİFİ:

Bitkisel Atık Yağların Kontrolü Yönetmeliği'ne uygun olarak, BELEDİYE nin sınırları içerisinde bulunan atık bitkisel yağ üreticisi konumundaki; ev, okul, restoran, lokanta, otel, fabrika, ...vb. işyeri mutfaklarından çıkan atık bitkisel yağların, TOPLAYICI nun tehlikeli atık taşıma lisansı bulunan araçları ve tehlikeli madde taşıma sertifikası bulunan şoförleri vasıtasıyla toplanması, taşınması ve lisanslı geri kazanım - bertaraf tesisine teslimidir.

### MADDE 5 -TOPLAYICI FİRMANIN SORUMLULUKLARI:

- 5.1. TOPLAYICI bitkisel atık yağ toplama işlemini, Bitkisel Atık Yağların Kontrolü Yönetmeliği'nde tanımlandığı şekilde yapacak, gerekli evrakları düzenleyecek ve bu evrakları ilgili birimlere (atık yağ üreticisi, BELEDİYE, İl Çevre ve Şehircilik Müdürlüğü ve Çevre ve Şehircilik Bakanlığı'na) zamanında teslim edecektir.

5.2. TOPLAYICI, BELEDİYE sınırları içerisinde bulunan ve kendisi ile sözleşme yapmış olan bütün atık üreticisi konumundaki işyerlerine, ayırım yapmadan hizmet verecektir.

5.3. TOPLAYICI nın, BELEDİYE'ye yanlış ve/veya eksik bilgi verdiğinin saptanması durumunda, lisanslarının herhangi birinin süresinin dolması veya iptal olması durumunda, TOPLAYICI nın bölgesindeki atık bitkisel yağ toplama faaliyetleri BELEDİYE tarafından hemen durdurulacaktır.

5.4. TOPLAYICI bu sözleşmedeki hak ve yükümlülüklerini BELEDİYE'nin yazılı izni olmadan bir başkasına devredemez.

#### MADDE 6 -BELEDİYENİN SORUMLULUKLARI

6.1. BELEDİYE sınırları içinde atık yağ toplama sözleşmesi ve yağ teslimatı konusunda düzenli denetim yaparak atık üreticilerinin Bitkisel Atık Yağların Kontrolü Yönetmeliği'ne uymalarını sağlayacaktır.

6.2. TOPLAYICI ile sözleşme yapmayan veya sözleşme yapıp, yağ teslim etmeyen işyerleri ile ilgili, TOPLAYICI nın ihbarlarını ve her ay sonu sunacağı raporlarını göz önüne alarak sorunlu yerlerde, sorunları kanun ve yönetmelikler çerçevesinde gidermeye çalışacaktır.

6.3. BELEDİYE mücavir alanı içerisinde lisanssız korsan toplayıcıların önlenmesi için gerekli tedbirler alınacak, bitkisel atık yağların TOPLAYICI firma dışındaki kişi veya kurumlarca toplanmasının engellenmesi için Çevre ve Şehircilik Bakanlığı'ndan alınmış olan yetki devri uyarınca gerekli yaptırımlar uygulanacaktır.

#### MADDE 7 -SÖZLEŞMENİN FESHİ:

Taraflar sözleşmede yazan hak ve sorumluluklarını kabul ve taahhüt ederler. Sözleşmede belirtilen sorumluluklarını yerine getirmediğinin tespiti halinde, yazı ile bildirilir. Bir ay süre sonrasında sorun giderilmediği takdirde, sözleşme iptal edilir.

İşbu sözleşme (1) yıl süreyle geçerli olup, yedi (7) madde, iki (2) sayfa ve iki (2) nüshadan ibaret olup ..../...../2019 tarihinde taraflarca imzalanmıştır.

### [3.4] Inorganic Waste Treatment

Our university carries out the following studies for the processing of inorganic wastes:

1. Organic wastes and inorganic wastes at the university are collected in separate garbage bins and organic wastes are recycled in the university's own facilities. Inorganic wastes are first collected in landfills and then collected and recycled by the Kütahya municipality.
2. DPU works with Has Erdoğanlar company for the treatment of inorganic wastes.

As a result of these studies carried out by our University for the processing of inorganic wastes, all of the inorganic wastes (>75% processing) are processed.

Example of Inorganic Waste Treatment (Kütahya Dumlupınar University, Turkey)

Example of Inorganic Waste Treatment (Kütahya Dumlupınar University, Turkey)

Rectorate (Kütahya Dumlupınar University, Turkey)

DPU works with Has Erdoğmuşlar Company for the processing of inorganic wastes.

Library (Kütahya Dumlupınar University, Turkey)

Working with Has Erdoğmuşlar Company for the processing of inorganic wastes.

Additional evidence link:

<https://www.gorehber.com/firma/has-erdogmuslar-138733/detay>

### [3.5] Toxic Waste Treatment

DPU within the scope of recycling of medical wastes;

1. A contract has been made with Era environmental technologies Incorporated company
2. Also DPU uses the Waste Management Application

As a result of these studies for the treatment of toxic wastes, all of the toxic wastes are processed.

1. Within the scope of recycling of medical wastes, DPU acts in line with the Decision of the Local Environment Committee of the Governorship of Kütahya. A contract has been signed with Era Environment Technologies Joint Stock Company affiliated to the Governorship of Kütahya, which operates as a medical waste facility in our province. In the context of the relevant medical waste contract, the medical wastes generated in the central and all district municipalities in the provinces where the medical waste processing facilities are located are sent to the medical waste processing facility in the province.

T.C KÜTAHYA VALİLİĞİ MAHALLİ ÇEVRE KURULU KARARI	T.C KÜTAHYA VALİLİĞİ MAHALLİ ÇEVRE KURULU KARARI
Karar Tarihi :27/01/2021 Karar No :2021/08	Karar Tarihi :27/01/2021 Karar No :2021/08
İlimiz Mahalli Çevre Kurulu, Vali Yardımcısı Sn. Aydın BÖRÜ'nün Başkanlığında, kurul üyelerinin katılımı ile 27.01.2021 Çarşamba günü saat: 14.00'de Valilik Toplantı Salonunda toplanmış olup; toplantı sonucunda aşağıdaki karar alınmıştır.	ve uygunsuz coğrafi koşullar gibi sebeplerle tıbbi atıkların bu tıbbi atık işleme tesisine gönderilmesinde zorluklar olması halinde; tıbbi atıklar bir başka ilde bulunan tıbbi atık işleme tesisine gönderilebilir. Bu durumda; öncelikle tıbbi atığın gönderilmek istendiği tıbbi atık işleme tesisinin bulunduğu ilin il müdürlüğünün uygun görüşünü müteakip, her iki ilin mahalli çevre kurulunda olumlu karar alınması kaydıyla ilgili belediye ile sözleşme yapılması gerekmektedir." hükmü gereğince ilimizde bulunan sterilizasyon tesisinde müteakip sebeplerin oluşması durumunda tıbbi atıkların bertarafının ilimizde bulunan Bursa ilinde bulunan sterilizasyon tesisinde yapılmasına, Oy çoğunluğu ile karar verilmiştir.
25.01.2017 tarih ve 29959 sayılı Resmî Gazete'de yayımlanarak yürürlüğe giren "Tıbbi Atıkların Kontrolü Yönetmeliği'nin "Atık Bertarafında Mali Yükümlülük" başlıklı, 24. maddesinin 2. fıkrasında;" Bu yönetmelik hükümlerine aykırı olmak şartıyla, toplama, taşıma, sterilizasyon ve bertaraf harcamalarına esas olacak tıbbi atık bertaraf ücreti, her yıl tıbbi atığın oluştuğu ilin mahalli çevre kurulu tarafından tespit ve ilan edilerek Bakanlığa bildirilir. Tıbbi atık bertaraf ücretinin tespitinde, oluşan atığın geleceği sterilizasyon ve/veya bertaraf tesisine taşınma masrafları ile sterilizasyon ve/veya bertaraf maliyetleri göz önüne alınır." denilmektedir. Yine söz konusu yönetmeliğin "Belediyelerin Yükümlülükleri" başlıklı 8. maddesinin ikinci fıkrasının c bendinde "Herhangi bir kimyasalla muamele gören patolojik atıkların 20. maddede belirtilen yöntemle bertaraf edilmesini sağlamakla yükümlülükleri" denilmektedir. Bu maddeler doğrultusunda ilimiz sınırları içerisinde bulunan ilin sağlık kuruluşlarında oluşan Tıbbi Atık ve herhangi bir kimyasalla muamele görmeyen Patolojik Atıklar için, 01.01.2021 tarihinden itibaren geçerli olmak üzere,	1) Ülkemizde yaygınlaşan Covid-19 salgını ile mücadele kapsamında Çevre ve Şehircilik Bakanlığınca Çevre Yönetimi Genel Müdürlüğüne yayımlanan 07.04.2020 tarih ve 84334 sayılı 2020/12 Genelgesi'nin 2. Maddesinde "Sağlık kuruluşlarında veya diğer alanlarda (özellikle yurdun vb.) tespit edilen karantina ünitelerinde oluşan atıklar ile kurum, kuruluş ve işletmelerin veya diğer tıbbi birimlerinde oluşan atıkların tıbbi atık olarak yönetilmeleri gerekmektedir olup bu birimlerde/alanlarda bulunan atıkların diğer atıklarla karıştırılmaması gerekmektedir." talimatı üzerine ilimizde, sağlık kuruluşları ve diğer alanlarda 2020 Mayıs ayı itibarı ile Covid-19 salgını sırasında Tıbbi Atık miktarında büyük artış gerçekleşmiştir.(2018 yılı 437.744 kg/yıl, 2019 yılı 408.548 kg/yıl iken 2020 yılı toplam tıbbi atık 653.767 kg/yıl olarak gerçekleşmiştir.) Salgının devam etmesi ve buna mukabil söz konusu genelgenin geçerliliğinin devam etmesi nedeniyle Atık Sterilizasyon Tesisini işleten Era Çevre Teknolojileri AŞ'nin tıbbi atıkların toplaması, taşınması ve bertaraf için tıbbi atık üreten Sağlık Kuruluşlarına ödenecek tutarına bir önceki dönemde yürürlükte olan kilogram başına olan fiyatın (3,80 TL/kg + KDV) aynı tutularak 2021 yılı için 3,80TL/kg+KDV olarak belirlenmesine,
1.1 a)İlimizde ayda 10 kg ve altında tıbbi atık üreten sağlık kuruluşları için tıbbi atık bertaraf ücretinin 42,00TL/ay+KDV olarak belirlenmesine, b)İlimizde ayda 10 kg ile 20kg arasında tıbbi atık üreten sağlık kuruluşları için tıbbi atık bertaraf ücretinin 72,00TL/ay+KDV olarak belirlenmesine,	KATILMADI Belediye Başkanı
2)Herhangi bir kimyasalla muamele görmeyen Patolojik Atıkların toplaması, taşınması ve yakma tesisinde bertaraf bedelinin 8,50TL/kg+KDV olarak belirlenmesine,	Recep YIRTIKGOZ İl Jandarma Komutanlığı
3) 25.01.2017 tarih ve 29959 sayılı Resmî Gazete 'de yayımlanarak yürürlüğe giren Tıbbi Atıkların Kontrolü Yönetmeliği'nin 8. maddesinin ikinci fıkrasında "Tıbbi atık işleme tesislerinin bulunduğu ildeki merkez ve ilin ilçe belediyesinde oluşan tıbbi atıklar ildeki tıbbi atık işleme tesisine gönderilir. ## [4] Water

### [4.1] Water Conservation Program Implementation

Rain Water Collection Pipe Lines (Kütahya Dumlupınar University, Turkey)

Example of Water Conservation – Lake (5 piece) (Kütahya Dumlupınar University, Turkey)

Kütahya Dumlupınar University has its own water resources. All of the water used is extracted from underground within our own means. In addition, geothermal water is extracted from underground.

- All buildings of the University of Dumlupınar have a separated sewerage system, for waste water and for clean water (rainwater). Rain water is thus collected from the roofs of the buildings and is then discharged into the local ponds and canals around the buildings.
- At our campus we have a separate sewerage system.

- We collect rainwater from the roof, parking area etc. and discharge this in the ponds and channels at our campus.
- In this study, the system is designed and implemented with the aim of saving the cool water which is wasted until the hot water becomes an available for using when the tap is turned on. So, in the project, an electronic control circuit with a programmed ATmega328 micro-controller, two 220V water solenoid valves- one of is in on and the other valve is in off position normally- a digital pressure sensor, a digital fluid flow sensor and a digital temperature sensor are used to achieve this purpose. We are assuming that the water being wasted 4 times a day; hence, 5,72 liters per day, 171,6 liters per month, as a result 2059 liters of potable water a year are wasted despite paying the fee. The temperature of water, the pressure of municipal water and movement of water are checked by sensors which are in the system. As a result of this study, substantial amount of water-saving was provided by recovering the cool water which is wasted until the hot water becomes an available for usage thanks to controlling of microcontroller.

**Additional evidence link:**

<https://hdl.handle.net/20.500.12438/8012>

<https://www.mersinhaber.com/haber-dpu-yuzde-80-tasarruflu-radyator-sistemi-gelistirdi/351471>

<https://www.google.com/search?q=DP%C3%9C+G%C3%96LET&oq=DP%C3%9C+G%C3%96LET&aqs=chrome..69i57.3909j0j7&sourceid=chrome&ie=UTF-8>

A total of 51% water savings are achieved.

#### **[4.2] Water Recycling Program Implementation**

Geothermal water comes out from underground. (Kütahya Dumlupınar University, Turkey)

Prof.Dr.İsmet Çelik who is member of Mechanical Engineering Faculty at Kütahya Dumlupınar University has developed a system that prevents waste of water in living spaces and enables recycling.

#### **DURING THE HEATING OF THE WATER, 10 TO 24 LITERS OF WATER IS WASTED**

In the system, which consists of three stages, the water that is wasted until it warms up is collected in a recycling warehouse. In the second stage, the water accumulated in the recycling tank contributes to the mains water in filling the reservoir in which a second float is placed. In the last stage, the water used for cleaning decreases from 10 liters to 6 liters thanks to the kinetic energy it gains when the existing reservoir is placed higher than the toilet bowl. Since 3 liters of this 6 liters are covered by the recycling of the water that is drained until it warms up, a significant saving is achieved by using 70% less water when flushing.

#### **PONDS IN THE UNIVERSITY**

The water collected in the ponds is used by our university for irrigation. Fish are grown in the pond for academic study purposes. Periodically, excess water can be used by the surrounding villagers for irrigation.

##### **1st. POND (Located in the lower area of the lodging)**

It was completed on 29.09.2000. With the unit prices of year 2000, it has cost TRY 147.499.00., it was made by the University foundation. It covers an area of 42.34 m<sup>2</sup>. It has a water volume of 210,000 m<sup>3</sup>.

There are recreation areas around it. It contributes to the irrigation of the fields below with the water flowing from the spillway discharge.

The rainwater and drainage water outlets of the campus are connected to this pond, and they are also fed from the surrounding ground and surface waters.

With the pumping system, it contributes to the irrigation of 113,000 m<sup>2</sup> turf area, increasing day by day. Its daily contribution to irrigation is approximately 8,000 TL.

##### **2nd. POND (located in the lower district of the Private Development College)**

It was completed in 2007. As a result of the evaluation of the excavations in the campus, it was built by our university's machine park and foundation at no cost to our university. It covers an area of 7.001 m<sup>2</sup>.

It has a water accumulation volume of 24,500 m<sup>3</sup>. There are recreation areas around it. It is fed from the ground and surface waters in the vicinity.

The discharge legs of the thermal water and other waters coming to our university are also connected here.

##### **3rd. POND (Located in the adjacent area of the Private Development College)**

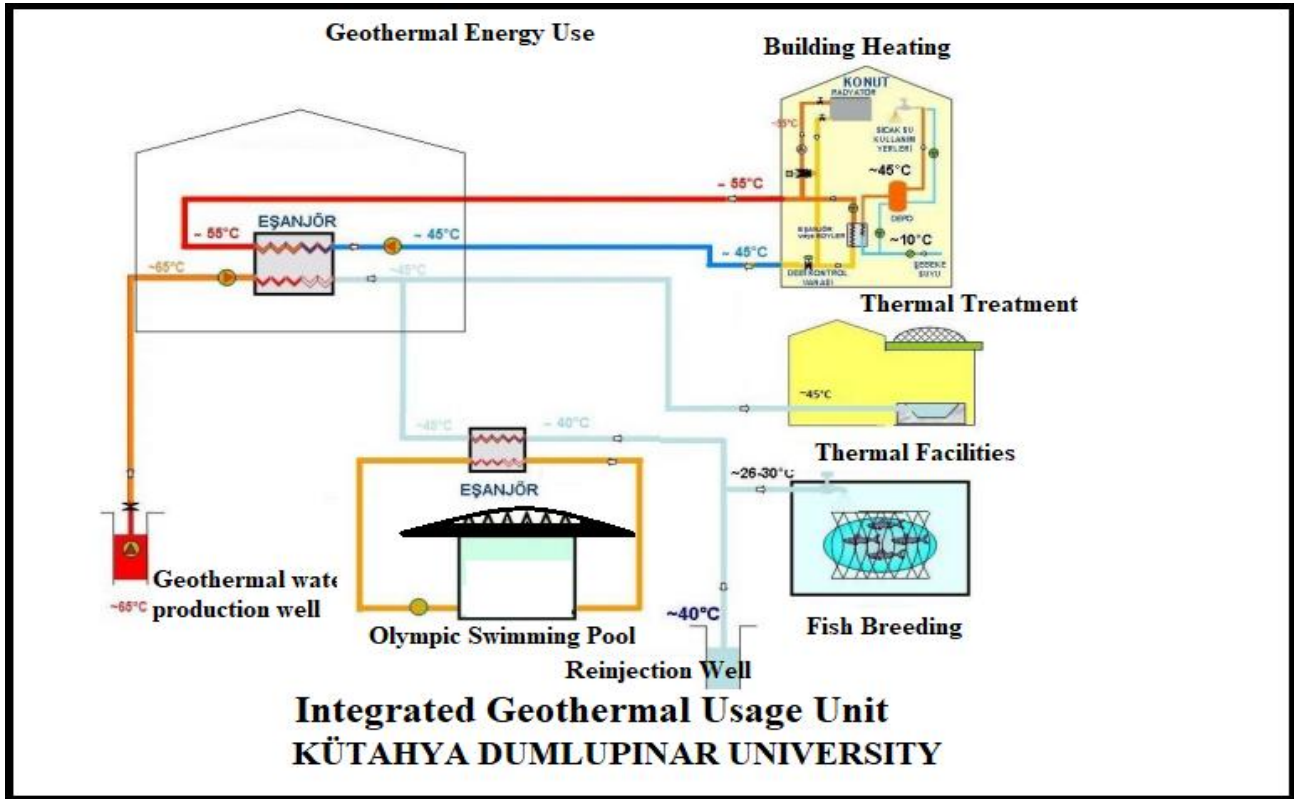

It was completed in 2007. Together with other ponds, it contributes to the efficient use of the campus topographic area. It covers an area of 2280 m<sup>2</sup>. It has a water accumulation volume of 4.500 m<sup>3</sup>. There are recreation areas around it. It is fed from the underground and surface waters in the vicinity.

The discharge legs of the thermal water and other water coming to our university are also connected here.

#### **4.THE OTHER PONDS**

The small ponds behind the Congress Cultural Center have a total water volume of 5000 m<sup>3</sup>.

**GEOHERMAL WATER IS EXTRACTED FROM UNDERGROUND AT KÜTAHYA DUMLUPINAR UNIVERSITY**

The hot water extracted from the underground is sent to the Physical Therapy and Rehabilitation Hospital and the Olympic Swimming Pool. The hot water in the pools of the Physical Therapy and Rehabilitation Hospital is sent to the ponds. It is also used for garden irrigation.

Hot water channels leading to Physiotherapy -Rehabilitation Hospital and Olympic Swimming Pool (Kütahya Dumlupınar University, Turkey)

In total, 30% water savings were achieved.

**[4.3] Water Efficient Appliances Usage (e.g. hand washing taps, toilet flush, etc.)**

Example of Water Efficient Appliances Usage (Kütahya Dumlupınar University, Turkey)

Although there are economical siphons and sinks in some buildings in our university, there is no statistics in

terms of number and percentage. It was said to be about 30 %.

Sensor siphon and washbasin application was made in the buildings of the School of Foreign Languages, Kütahya Dumlupınar University Foundation Mosque, Faculty of Islamic Sciences and Faculty of Sports Sciences.

There are cisternisers (automatic control of urinal flushing), waterless urinals, low flush WC's and low flo taps and automatic taps at the University. its total percentage of % 30.

Appliance	Average Percentage	Percentage
Toilet , Wastafel, Etc.		30 %

#### [4.4] Consumption of Treated Water

Example of **Consumption of treated water** (Kütahya Dumlupınar University, Kütahya)

Picture A- University water reservoir (Kütahya Dumlupınar University, Kütahya)

Kütahya Dumlupınar University does not use the city water supply provided by the municipality. Kütahya Dumlupınar University extracts and uses all water used in the campus with its own means. **80% of the water used is treated.** We collect water fees from Kütahya Health Sciences University and other construction sites and Credit Dormitories Institution.

#### [4.5] Percentage of Additional Handwashing and Sanitation Facilities during Covid-19 Pandemic

Disinfectant treatment was carried out in all of our university buildings, thermometers and liquid disinfectant tools were placed in the buildings.

Rooms are disinfected at regular intervals. (Kütahya Dumlupınar University, Turkey)

Temperature Meter (Dumlupınar University, Turkey)

Liquid disinfectant tools  
(Kütahya Dumlupınar University, Turkey)

Hand sanitizer tools are available in all buildings on campus. Disinfection processes are carried out in all rooms with special machines at certain intervals. All buildings have hand washing facilities. There is a fever measuring device at the entrance of the Rectorate building.

## [5] Transportation

### [5.1] The Total Number of Vehicles (Cars and Motorcycles) Divided by Total Campus' Population

The total number of vehicles divided by the total campus population in our university is less than 0,045.

No.	Vehicle	Total Number
1	Car managed by the university	45
2	Cars entering the university	9
3	Motorcycles entering the university	4
	Total	58

The total number of vehicles (cars and motorcycles) divided by total campus' population =  $58 / 1331$  (population) = 0,043

### [5.2] Shuttle Services

Shuttle service is provided by the our university, regular, and free.

Example of Shuttle Vehicles (Kütahya Dumlupınar University, TURKEY)

KÜTAHYA DUMLUPINAR ÜNİVERSİTY SHUTTLE HOURS		
TIME	ARRIVAL TIME	DEPARTURE TIME
ADMINISTRATIVE PERSONNEL SHUTTLE VEHICLE	08:30	17:30
SHUTTLE BUS	09:00	11:00
SECURITY PERSONNEL SHUTTLE VEHICLE	07:45	15:15
	15:15	23:15
	23:15	07:45
CLEANING STUFF SHUTTLE VEHICLE	07:45	17:45

Example of Shuttle Services – Bus Timetable (Kütahya Dumlupınar University, TURKEY)

University staff are very well served by the university-run shuttle bus from the central campus to the city and from the city to the central campus.

Example of Shuttle Vehicles (Kütahya Dumlupınar University, TURKEY)

### [5.3] Zero Emission Vehicles (ZEV) Policy on Campus

Kütahya Dumlupınar University owns bicycles and electric bicycles, and offers its bicycles and electric bicycles to the use of its staff and students in order to encourage the use of zero-emission vehicles and does not charge any fee as a usage fee. It also supports students' solar-powered car construction work as part of its zero-emission vehicle policy.

Example of Campus Bikes  
(Dumlupınar University, Turkey)

Case Zero Emission Electric Bicycle  
(Dumlupınar University, Turkey)

DPU students produced solar-powered cars (Dumlupınar University, Turkey)

Dpu Duscart Fourth In Turkey In Efficiency Challenge

Mobile Vehicle (BAP supported)

Manufacturing Engineering students of Kütahya Dumlupınar University (DPÜ) Simav Technology Faculty produced a solar-powered car. It is stated that the vehicle can travel 40 kilometers with 2 hours of electricity. Students are Kenan Güner and Can Özdilek.

Dumlupınar University DUSCART Electromobile Team achieved a great success as the 4th in the electromobile category of the 2020 Alternative Energy Car Race organized by TÜBİTAK, thanks to the domestic electric motor it produced. Participating in the event held at Kocaeli Körfez Race Track, the DPÜ DUSCART team used engine, battery management system, built-in charging unit and vehicle control system and battery packaging from auxiliary components, which are among the four mandatory domestic product development conditions that TÜBİTAK demands from participating universities. These parts have been successfully used in the electric vehicle by producing completely with domestic parts in the University's Electrical-Electronics Engineering and Mechanical Engineering laboratories.

Noting that DUSCART's fast tours in the show race attracted attention, Minister Mustafa Varank and President Prof. Dr. Hasan Mandal congratulated the students and signed their signature on the DUSCART vehicle for the memory of the day. Minister Varank expressed that he waited for the race in Istanbul Park by presenting tickets to the students in the team for the Formula 1 races to be held on November 13-15 this year.

<http://aekam.dpu.edu.tr/tr/index/sayfa/4946/mobil-arac-bap-destekli>

#### [5.4] Ratio of Parking Area to Total Campus Area

Total main campus area: 7541371,54 m<sup>2</sup>

Total parking area = 62431,91m<sup>2</sup>

Ratio of parking area to total campus area

Formula:  $((5.12/1.5) \times 100\%) = ((62431,91/7541371,54) \times 100\%) = 0,8$

0,8 % < 1 %

[5.5] Program to Limit or Decrease the Parking Area on Campus for the Last 3 Years from 2018 to 2020)

Free Bicycle for rent (Kütahya Dumlupınar University, TURKEY)

(Program decrease the parking area on campus)  
(Kütahya Dumlupınar University, BESYO (School of Physical Education and Sports) , TURKEY)

1. Free to rent bicycle on campus (There are 189 bicycles.)
2. Program decrease the parking area on campus (School of Physical Education and Sports):  
It is aimed to reduce the parking area of 10.000 m<sup>2</sup> in the open area in the sports facilities to 8.000 m<sup>2</sup> next year.

**[5.6] Number of Transportation Initiatives to Decrease Private Vehicles on Campus**

In order to limit or reduce the use of private vehicles on campus, Kütahya Dumlupınar University provides free bus service, bicycle service, zero emission vehicle usage, UTV and ATV usage services. Therefore, there are 5 transportation applications provided by our University in order to limit or reduce the use of private vehicles.

Campus Bus (Kütahya Dumlupınar University, Turkey)

Case Zero Emission Electric Bicycle (Dumlupınar University, Turkey)

Free Bicycle for rent (Kütahya Dumlupınar University, Turkey)

UTV (Kütahya Dumlupınar University, Turkey)

ATV (Kütahya Dumlupınar University, Turkey)

1. Shuttle/bus campus inside campus
2. Free to rent bicycle on campus
3. Case Zero Emission Electric Bicycle
4. UTV on campus
5. ATV on campus

### [5.7] Pedestrian Path Policy on Campus

There are pedestrian paths equipped with disability-friendly features on our university campus. Parks and pedestrian paths on campus are arranged in a way that can be used by the disabled. On our campus, which is illuminated for pedestrians at night, there is a dividing strip between the vehicle road and the pedestrian road, and there are ramps and tangible walking surfaces designed for the use of physically disabled pedestrians.

Pedestrian road example,  
(Kütahya Dumlupınar University)

Pedestrian road example,  
(Kütahya Dumlupınar University)

1. Park and pedestrian road are also in order in the campus plan.
2. There is a separating lane between the vehicle road and the pedestrian road.
3. There are lights for pedestrians at night.
4. There are ramps and guiding blocks designed for physically disabled pedestrians.

Ramps and guidance blocks suitable for physically disabled pedestrians, (Kütahya Dumlupınar University)

Examples of park areas, (Kütahya Dumlupınar University)

Street lamp for pedestrian in night, (Kütahya Dumlupınar University)

Street lamp for pedestrian in night, (Kütahya Dumlupınar University)

Example of Courses/Subjects Related to Sustainability (Kütahya Dumlupınar University, TURKEY)

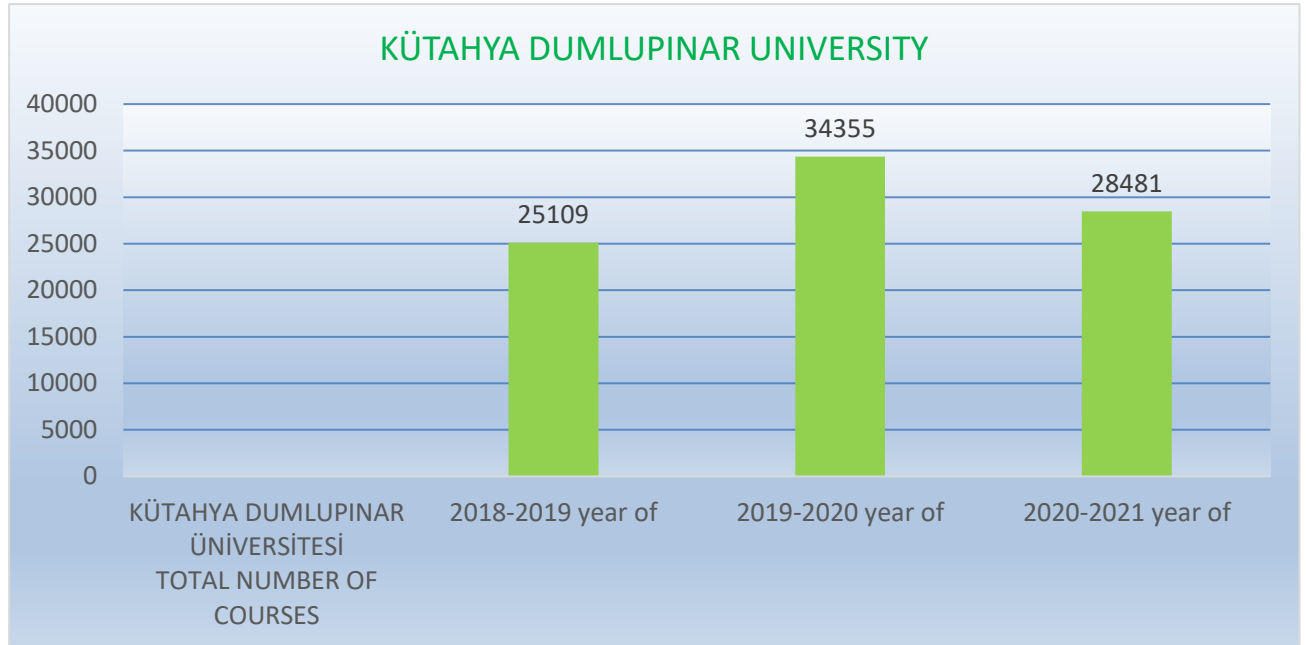

Total number of courses with sustainability embedded for courses running in 2020/21: 3642

## [6.2] Total Number of Courses/Subjects Offered

In our university, 25.109 lessons were given in the 2018-2019 period, 34.355 lessons were given in the 2019-2020 period, and 28.481 lessons were given in the 2020-2021 period.

2018	25109
2019	34355
2020	28481

## [6.3] Total Research Funds Dedicated to Sustainability Research (in US Dollars)

Information on the researches conducted in Kütahya Dumlupınar University in 2018-2019 and 2020 on sustainability issues is given in the table below. According to this information, the average budget allocated to research on sustainability by Kütahya Dumlupınar University is USD 52,141.93.

Research Number	RESEARCH	FUNDS	RESEARCH TYPE	RESEARCH START DATE	RESEARCHER
2020 - 25	Copper Removal from Waste Water by Raw and Modified <i>Thymus pannonicus</i>	19.942,00	Quick Support Projects	09.12.2020	Dr. Öğr. Üyesi Ferda ÖZMAL
2020 - 24	Production of Antimicrobial Hygienic Disinfectants and Cleaning Materials Containing Silver Nanoparticles	498.418,77	Priority Area Projects	07.12.2020	Prof. Dr. Cengiz YENİKAYA
2020 - 19	Dumlupınar University Open Air Plant Museum and Medicinal Aromatic Herb Garden	20.000,00	Quick Support Projects	16.10.2020	Dr. Öğr. Üyesi Nüket Akanıl BİNGÖL

2020 - 10	University Perceptions, Educational Adaptation and Future Orientations of Foreign Students: The Case of Kütahya Dumlupınar University	13.162,50	Career Start Projects	05.05.2020	Dr. Öğr. Üyesi Zeynep HIÇDURMAZ
2020 - 08	Investigation of the purification performances of carbonized textile waste added composites in textile waste waters.	28.416,50	Scientific research project	13.01.2020	Dr. Öğr. Üyesi Bülent BÜYÜKKIDAN
2020 - 06	Acid Mine Drainage (AMD) Estimation in Mine Waste Sites (Pasa) with Static-Kinetic Methods and Simulation Model	29.989,51	Scientific research project	13.01.2020	Dr. Öğr. Üyesi Uğur DEMİR
2020 - 01	Investigation of benthic diatom flora of Lake Van	19.613,82	Scientific research project	13.01.2020	Prof. Dr. Cüneyd Nadir SOLAK
2019 - 24	Isolation and Molecular Identification of Infectious Bacteria in Trout Production Facilities in Domanıç District	29.972,89	Scientific research project	09.09.2019	Prof. Dr. Kazım UYSAL
2019 - 23	Gender-Sensitive Budgeting: A Study On The Efficiency Of Municipalities	7.000,00	Scientific research project	23.08.2019	Doç. Dr. Hatice DAYAR
2019 - 19	Determination of Anti-microbial Activity of Silver Nanoparticles Obtained by Green Synthesis by RAPD-PCR Method	18.667,60	Scientific research project	24.07.2019	Doç. Dr. Fatih ŞEN
2019 - 12	Synthesis, Characterization and Investigation of Biological Properties of Transition Metal Complexes of Sulfamoylbenzoic Acid Derivatives	19.992,54	Scientific research project	13.06.2019	Dr. Öğr. Üyesi Halil İLKİMEN
2019 - 11	Investigation of Diatome Samples in Domanıç Fish Farms Leaving Waters	17.368,00	Scientific research project	31.05.2019	Prof. Dr. Hayri DAYIOĞLU
2019 - 08	Determination of DNA Damage by Comet Analysis Method in Carp (Cyprinus carpio) and Crane (Esox lucius) Fish in Işıklı Lake	26.328,16	Scientific research project	28.05.2019	Dr. Öğr. Üyesi Müge GİDİŞ
2019 - 07	Kütahya In My Preschool Book: Vazocan	6.000,30	Scientific research project	28.05.2019	Doç. Dr. Fulya TOPÇUOĞLU ÜNAL
2019 - 06	Petrography, K-Ar Geochronology and Isotope Geochemistry of Volcanites Surfacing in the West of the Emet (Kütahya) Boron Basin	28.905,83	Scientific research project	28.05.2019	Doç. Dr. Cafer ÖZKUL
2019 - 02	Determining the Relationships between Science Teacher Candidates' 21st Century Skills and Some Variables: A Structural Equation Modeling	6.600,00	Scientific research project	07.03.2019	Dr. Öğr. Üyesi Yusuf ZORLU

2018 - 38	Investigation of Turkmen Mountain Diatom Samples Found in Dumlupınar University Diatom Laboratory under Electron Microscope	16.833,88	Scientific research project	18.12.2018	Doç. Dr. Cüneyt Nadir SOLAK
2018 - 27	Synthesis, Characterization And Investigation Of Biocomposite Based New Generation Nanofibers	24.824,25	Scientific research project	19.09.2018	Doç. Dr. Orhan Murat KALFA
2018 - 37	Determination of Drying Behaviors and Product Quality of Foodstuffs in Freeze, Convective and Different Wavelengths Dryer	20.000,00	Scientific research project	01.11.2018	Dr. Öğr. Üyesi Ümran ERÇETİN
2018 - 29	Investigation of Synthesis, characterization and applicability of new nanomaterials to obtain energy from alcohol.	19.789,58	Scientific research project	19.09.2018	Doç. Dr. Fatih ŞEN
2018 - 30	Application Of A Wall Panel As An Aesthetic Element To The Main Entrance Social Area Of Bedesten	23.552,80	Scientific research project	19.09.2018	Doç. Dr. Nurettin GÜLAÇTI
2018 - 18	Design and synthesis of a visible light-activated lysine-bordipyrromethene hybrid molecule for cancer therapy	19.950,26	Scientific research project	01.06.2018	Dr. Öğr. Üyesi Kemal KAYA
2018 - 34	Math Literacy Success Tests Development Study	3.255,00	Scientific research project	08.10.2018	Dr. Öğr. Üyesi Furkan DEMİR
2018 - 20	Investigation of genetic stability of propagated clonal plant species of <i>Prunella vulgaris</i> , <i>Taraxacum officinale</i> and <i>Estouma grandiflorum</i> under the in vitro conditions by iPBS method.	20.000,00	Scientific research project	10.07.2018	Doç. Dr. Burcu ÇETİN
2018 - 13	Investigation of the Effects of Proton Pump Inhibitors on Mineral Structures of Leukocytes and Bones	19.988,82	Scientific research project	14.05.2018	Dr. Öğr. Üyesi Orhan ÖZATIK
2018 - 19	Birth-Wedding and Death Customs of Kütahya from Past to Present	4.500,00	Scientific research project	06.06.2018	Arş. Gör. Dr. Münire BAYSAN
2018 - 02	Drying Local Products Grown In Kütahya In A Plc Controlled, Rotary Tray, Cabinet Type Dryer And Modeling Of The Availability Of Solar And Geothermal Energy Resources With The Ysa System	20.000,00	Scientific research project	31.01.2018	Doç. Dr. Abdullah AKBULUT
2018 - 08	The Effect of Organizational Strategies and Ethical Climate and Cultural Structures of Publicly Traded Firms on Fraudulent Financial Reporting Risk	4.998,38	Scientific research project	13.02.2018	Doç. Dr. Niyazi KURNAZ
2018 - 16	The Effect of Music on Non-Stress Test and Maternal Anxiety	2.555,27	Scientific research project	14.05.2018	Dr. Öğr. Üyesi Fatma BAŞAR

2018 - 14	Investigation of Structural and Radiation Characteristics of Airborne Soot Aggregations in Certain Regions in Turkey	10.000,00	Scientific research project	14.05.2018	Doç. Dr. Nimeti DÖNER
2018 - 11	Elucidating the mechanisms involved in DNA demethylation based on epigenetic changes in the crypt-villus axis	19.030,96	Scientific research project	26.03.2018	Arş. Gör. Dr. Emrah TÜMER
Total (2018-2019-2020) =		1.019.657,62	TL	SUSTAINABILITY RESEARCH

Example of Sustainability Research Fund (Kütahya Dumlupınar University, TURKEY)

Total research fund dedicated to sustainability research in 2018 = 44.092,15 US Dollars  
 Total research fund dedicated to sustainability research in 2019 = 27.260,22 US Dollars  
 Total research fund dedicated to sustainability research in 2020 = 85.073,40 US Dollars  
 The averaged annum last 3 years of research fund dedicated to sustainability research = 52.141,93 US Dollars

#### [6.4] Total Research Funds (in US Dollars)

Information on the research conducted at Kütahya Dumlupınar University in 2018-2019 and 2020 is given below. According to this information, the total research budget of Kütahya Dumlupınar University is \$217,088 on average.

## KÜTAHYA DUMLUPINAR UNIVERSITY TOTAL RESEARCH BUDGET

**The averaged annum last 3 years of research fund \$ (2018-2019-2020)**

(Dumlupinar University & Research, Turkey)

Total research fund in 2018 = 300.000 US Dollars

Total research fund in 2019 = 133.560 US Dollars

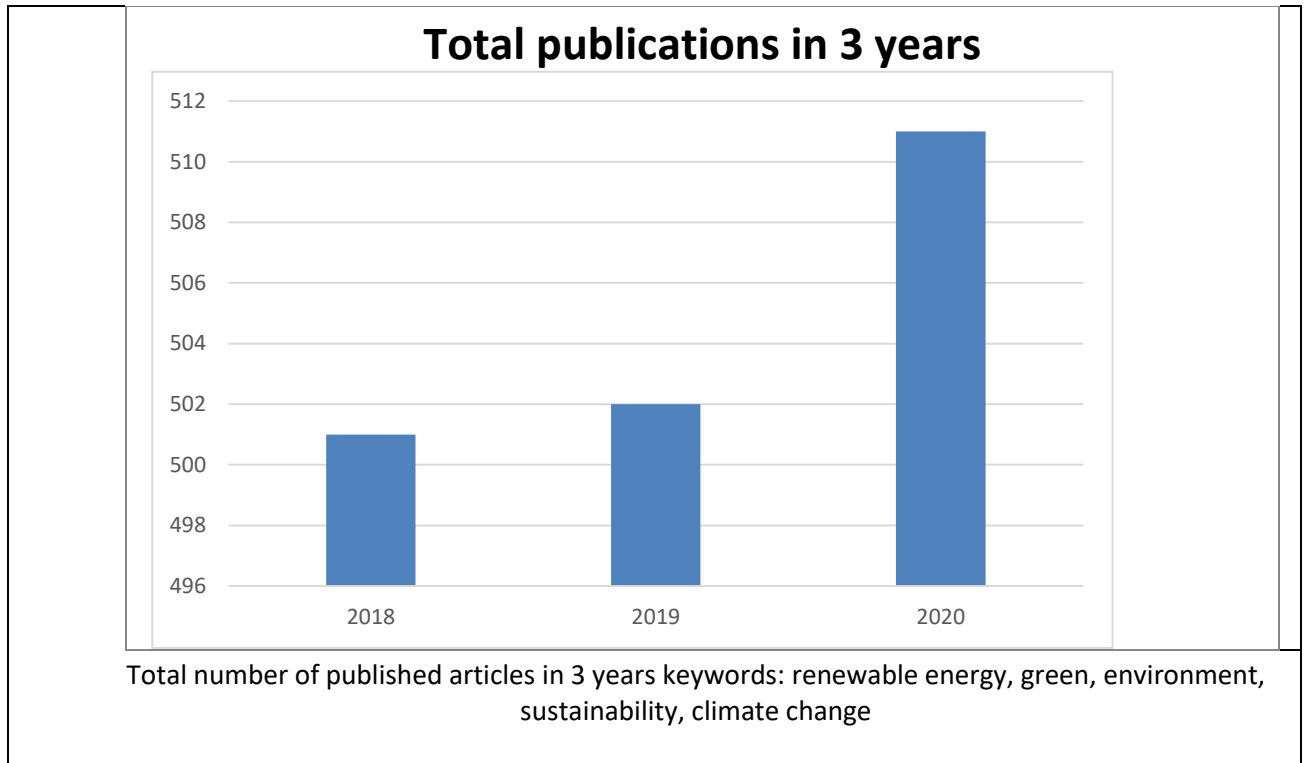

Total research fund in 2020 = 217.703 US Dollars

The averaged annum last 3 years of research fund = 217.088 US Dollars

KÜTAHYA DUMLUPINAR UNIVERSITY TOTAL RESEARCH BUDGET		
The averaged annum last 3 years of research fund \$ (2018-2019-2020)		
1	PURCHASE OF GOODS	55.916,33
2	WAY	5.049
3	PROCUREMENT OF SERVICES	12.696,12
4	DEVICE PURCHASE and FIXTURE PURCHASE	143.426,60
TOTAL RESEARCH BUDGET		217.088

### [6.6] Number of Scholarly Publications on Sustainability

In 2018-2019 and 2020, the number of academic publications on environment and sustainability was 1,430, and the average number of academic publications on sustainability was 476.

There are **476 scholarly publications (3 years average)** scanned by Google Scholar and SCI-EXPANDED, SSCI, A&HCI, CPCI-S, CPCI-SSH, BKCI-S, BKCI-SSH, ESCI indexes.

#### **[6.10] Number of University Program(S) to Cope With Covid-19 Pandemic**

There are programs implemented by Kütahya Dumlupınar University in order to carry out educational activities and social and cultural activities without any problems during the Covid 19 pandemic. These programs are:

1. Distance Education Policy Document was created.
2. Distance Education Strategic Plan was created.
3. There is software called ALMS.
4. There is software called Perculus. (Virtual Classroom and e-Meeting Platform)
5. In the distance education process carried out due to the COVID-19 Pandemic Process, computer laboratories etc. areas are open to the use of all university students.
6. There are practices regarding improvements made within the scope of student feedback for distance/coeducation processes.
7. As per the decision taken by our University Senate, the 2019-2020 spring semester mid-term exams, homework, projects, application assignments, etc. form was decided.
8. Online meetings were held in six groups about distance education processes in order to improve the teaching competence of all faculty members at our university.
9. Our university actively uses whatsapp application to provide easy access to students during the pandemic process.
10. Online social and cultural events were organized.

## 1. Distance Education Policy Document was created.

T.C.  
KUTAHYA DÜMLUPINAR UNIVERSITY  
DISTANCE EDUCATION APPLICATION AND RESEARCH CENTER  
DISTANCE EDUCATION POLICY DOCUMENT

Our University's Distance Education Application and Research Center (UZEM) based on communication and information technologies, aims to support the plans, programs, coordination and implementation activities for distance education within the scope of all education programs at the University, including associate, undergraduate, graduate, continuing education and lifelong education. In line with this goal; The following principles are followed:

- Increasing the level of satisfaction in distance/co-education and training activities
- Developing the corporate culture in distance/co-education
- Students of distance/blended education programs can have the same institutional support and services as face-to-face education students.
- Implementation, knowledge and adoption of proven and effective techniques based on quality criteria in distance/co-education programs.
- To carry out R&D activities on distance/co-education
- To provide training and support to students of Distance/co-education programs regarding the application and use of new technologies.
- Evaluate the quality of distance/blended education programs and carry out improvement studies.
- Strengthening relations with stakeholders from civil society and industry.
- To increase the quality of Distance/co-ed education offered by our university.

## 2. Distance Education Strategic Plan was created.

Distance Education Strategic Plan has been established.

[Kütahya Dumlupınar Üniversitesi Uzaktan Eğitim Uygulama ve Araştırma Merkezi 2020-2023 Stratejik Planı.pdf](#)

## 3. There is software called ALMS.

There is a software called ALMS.

Kütahya Dumlupınar University has learning methods and approaches specific to the distance/coeducation processes being implemented. Within the Distance Education Center of our university, the software called ALMS belonging to Advacity company is used for distance education purposes.

The tasks of this software ALMS can be listed as follows;

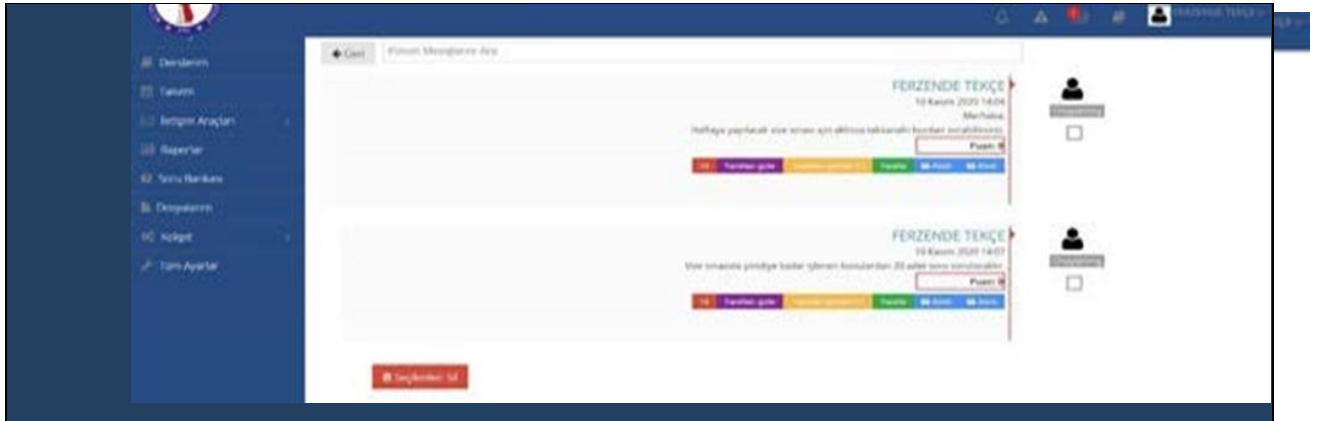

- To perform user registration and management procedures,
- To ensure that the instructor course contents are delivered to the students,
- To provide communication and interaction between students and instructors,
- To make measurement-evaluation,
- To follow the learning information,

- To report at the end of the processes,
- 

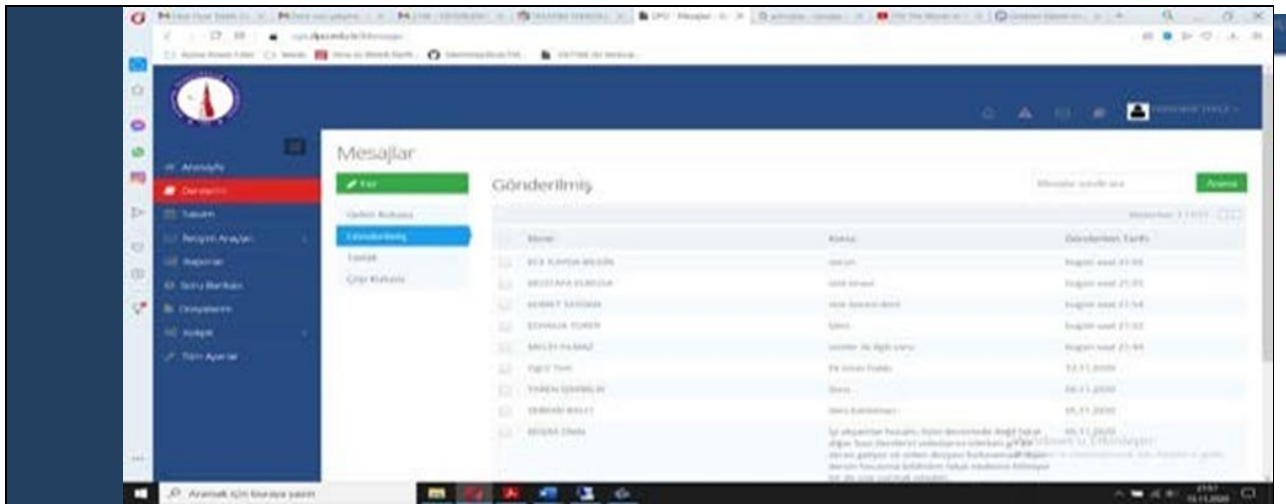

#### 4. There is software called Perculus. (Virtual Classroom and e-Meeting Platform)

There is a software called Perculus. (Virtual Classroom and e-Meeting Platform) The tasks of Perculus software can be listed as follows:

- Enabling the instructor to record online course content,
- To ensure that the instructor course contents are delivered live to the students,
- To provide live communication and interaction between students and instructors,
- To make measurements (survey),
- Reporting at the end of the processes (attendance and monitoring rates) Forum Screen

Messaging Screen (Kütahya Dumlupınar University, Turkey )

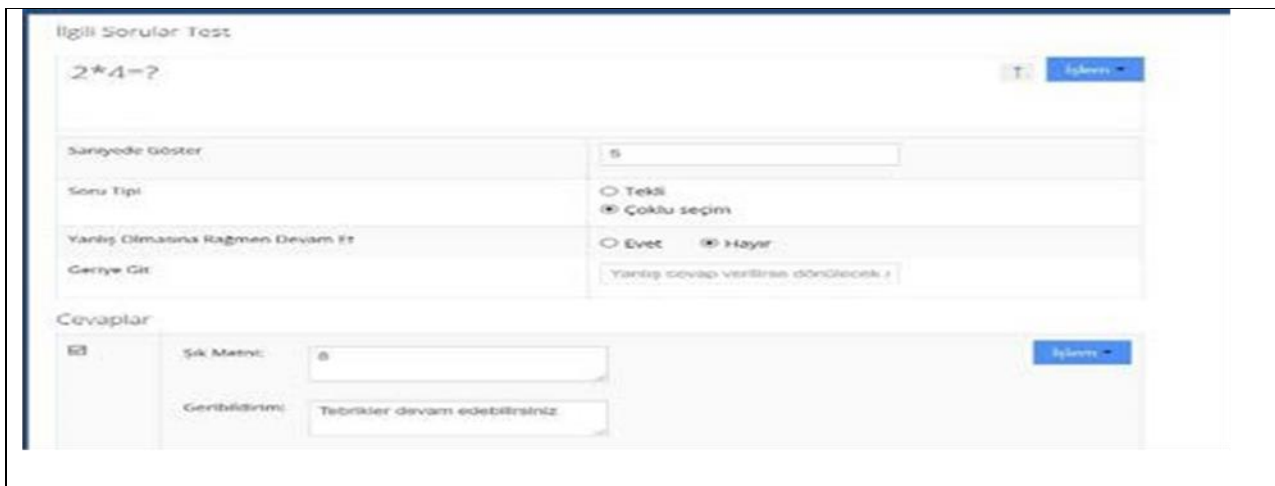

Instructor's Question Creation Screen (Kütahya Dumlupınar University, Turkey )

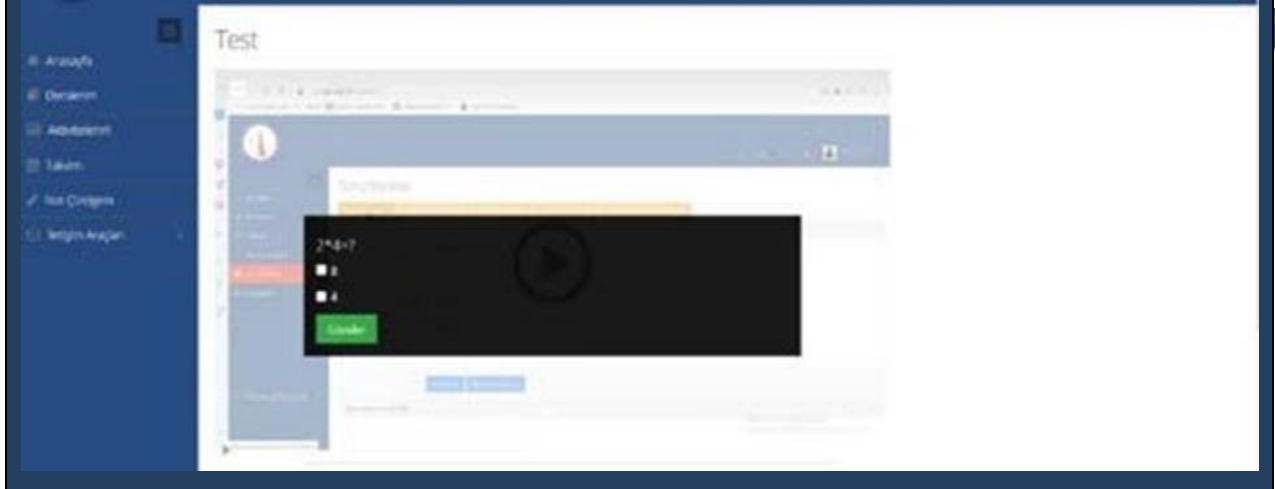

Student Exam Screen (Kütahya Dumlupınar University, Turkey )

Instructor's Screen to Add Questions to The Video (Kütahya Dumlupınar University, Turkey )

Intelligent Video Student Interaction Moment (Kütahya Dumlupınar University, Turkey )

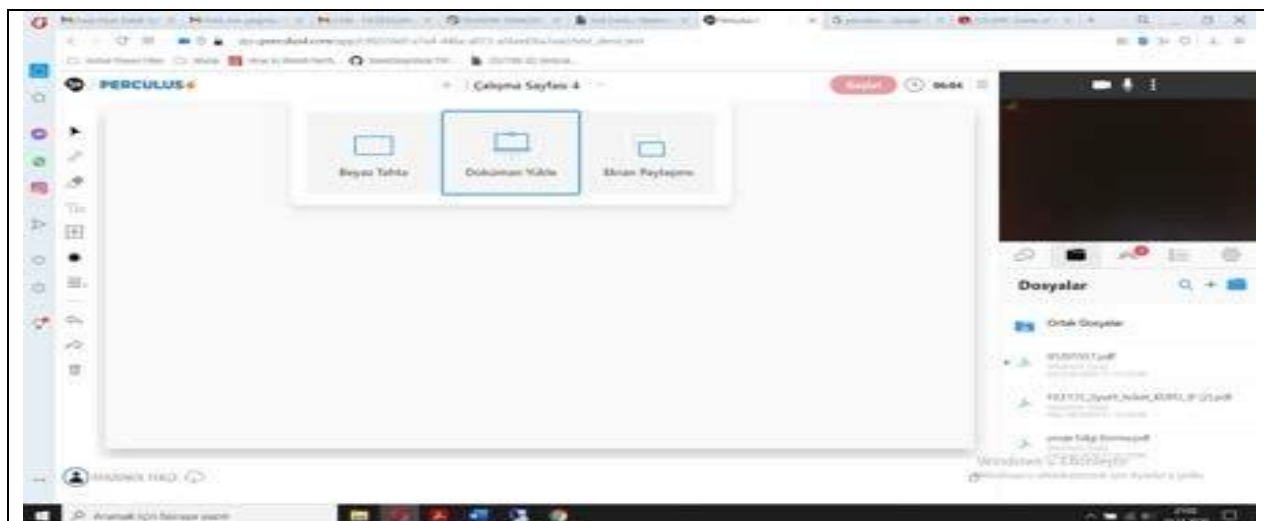

Instructor Activity Add Screen (Kütahya Dumlupınar University, Turkey )

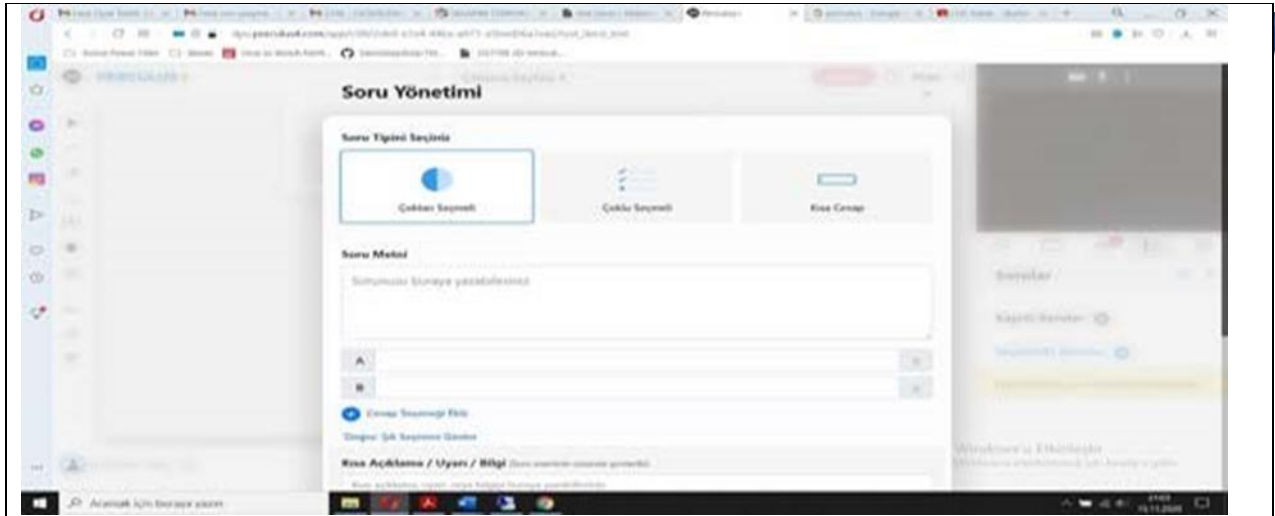

Perculus Other Sharing Options (Kütahya Dumlupınar University, Turkey )

Perculus Questionnaire (Kütahya Dumlupınar University, Turkey )

Perculus Questionnaire (Kütahya Dumlupınar University, Turkey )

**5. In the distance education process carried out due to the COVID-19 Pandemic Process, computer laboratories etc. areas are open to the use of all university students.**

Opening computer laboratories and similar areas etc. to the use of all university students during the distance education process carried out due to the COVID-19 pandemic process.

Students can access all applications on our Learning Management System, including exams, from their computers, tablets or mobile devices. Demands from students were followed up by our institution, and solutions were created for students who do not have computers and internet facilities. The proposals of the Higher Education Council regarding "cooperating with other universities within the scope of producing solutions for students who do not have access to digital environments" were taken into consideration. In the distance education process carried out due to the COVID-19 Pandemic Process, computer laboratories etc. areas are open to the use of all university students.

**6. There are practices regarding improvements made within the scope of student feedback for distance/coeducation processes.**

According to the decision taken by the Senate of our University, 2019-2020 spring semester midterm exams were decided to make as homework, project, application assignment, etc. form .

There are practices regarding the improvements made within the scope of student feedback for distance/co-education processes. Students can forward their problems, requests and requests to the system administrators by using the help desk option (evidence file Distance education system Help Desk example). The feedback received fr

22 Nisan 2020

*A. Bal*  
Prof. Dr. Atilla BATUR  
Genel Sekreter V.

The students was evaluated in the decision-making process for improvement. As a result of the emails and interviews from the students, as per the decision taken by the University Senate, the 20192020 spring semester mid-term exams were decided to make as homework, projects, application assignments, etc.

**MIDTERM EXAM APPLICATIONS FOR DISTANCE EDUCATION COURSES IN 2019-2020 SİPRING SEMESTER**  
Within the scope of the decision taken by the Presidency of the Republic of Turkey on March 16, 2020 due to the Covid-19 pandemic, at the meeting of the Higher Education Executive Board on 18.03.2020, it was decided to continue education and training activities in universities with distance learning method, provided that it is limited to the 2019-2020 Spring semester.

For this reason, in accordance with the decision taken at the meeting of our University Senate on 26.03.2020, the courses for the 2019-2020 spring semester started to be taught by distance education method on

30.03.2020.

Since the beginning of distance education, 33986 students enrolled in 5473 different courses on our [eys.dpu.edu.tr](http://eys.dpu.edu.tr) address have provided daily access to more than 20,000, providing access to 12901 virtual classrooms and 4425 lecture videos, 2284 different documents, and a total of over 350000 access has been reached and the system has reached its target and been carried out appropriately and successfully.

Our university has established its infrastructure to make the 2019-2020 spring semester midterm exams in the form of multiple choice, open-ended, fill-in-the-blank, classical and homework/project, practice assignments through the distance education system. Regarding midterm exam applications;

Due to the daily developments in the Covid-19 pandemic process (curfew, age restriction, metropolitan entry/exit restrictions, etc.) in order to eliminate the problems and grievances that may be experienced in our students' access to the online midterm exam system under equal conditions, the spring semester midterm exams are decided to make as homework, project, application assignment, etc. limited to the pandemic process. By conducting the midterm exams in this way, it is aimed to eliminate the negativities such as internet access problems, power cuts, difficulties in accessing the system due to residence in rural areas, mobile device and computer limitations.

1. Exams are given to students by the instructor of the relevant course until the start date of the midterm exam (04.05.2020) as homework, project, application homework, etc.
2. Students can submit their homework, project, application homework, etc., by mail, cloud systems or [eys.dpu.edu.tr](http://eys.dpu.edu.tr) etc. using their systems.
3. Delivered homework, project, application assignment, etc. The documents will be recorded and stored in the digital environment to be delivered to the relevant Unit by the instructor of the relevant course.
4. The instructor of the relevant course will announce the midterm exam results by entering their grades on OBS (Student Information System) until 06.06.2020.

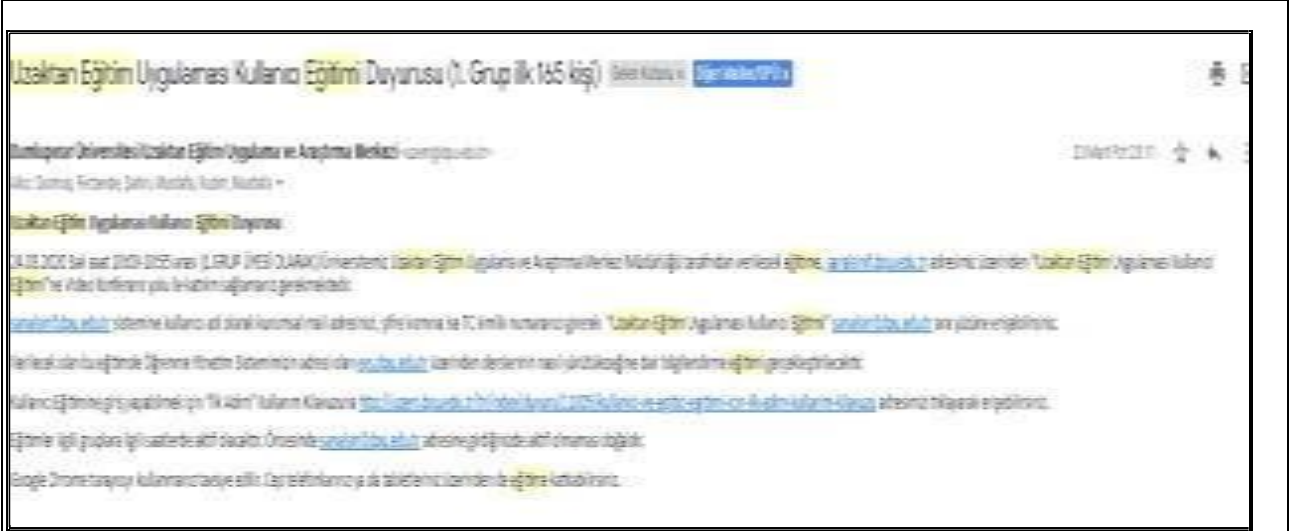

Possible updates regarding the end of the semester and make-up exam calendar in the general academic calendar announced on the website of our university, and explanations on how the exams will be held will be made at a later date depending on the developments in the Covid-19 pandemic process.

Detailed explanations on the subject will be announced on our university's official website and official social network accounts, and it is important for our students to follow the announcements.

**7. As per the decision taken by our University Senate, the 2019-2020 spring semester mid-term exams, homework, projects, application assignments, etc. form was decided./ 8. Online meetings were held in six groups about distance education processes in order to improve the teaching competence of all faculty members at our university.**

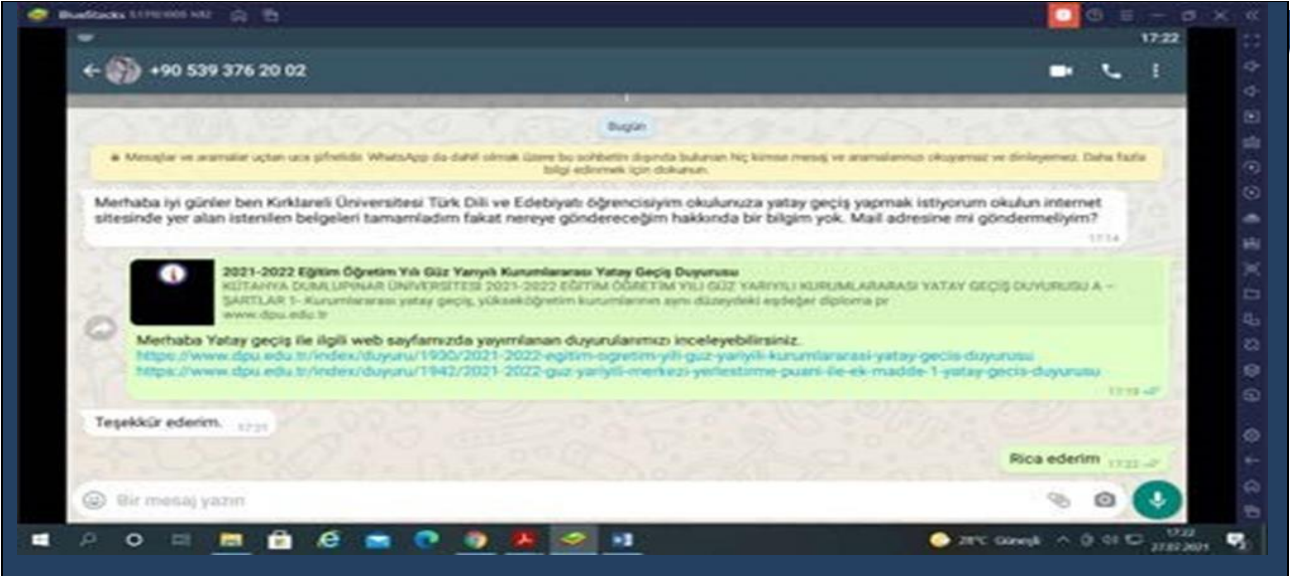

In order to improve the teaching competence of all faculty members at our university, online meetings were held in six groups about distance education processes.

After the start of the pandemic process and the decision to switch to distance education taken by YÖK, our university immediately made plans to improve the teaching competence of the instructors involved in the distance / blended education processes. In order to improve the teaching competence of all faculty members at our university, online meetings were held in six groups about distance education processes. Below is a screenshot of the sample meeting invitation.

Distance Education Application Announcement (Kütahya Dumlupınar University, Turkey )

9. Our university actively uses whatsapp application to provide easy access to students during the pandemic process.

WhatsApp Application to Provide Easy Access (Kütahya Dumlupınar University, Turkey )

10. Online social and cultural events were organized. Since the beginning of 2020, when the Covid 19 pandemic prevailed, online social and cultural activities have been organized with the participation of our university students and staff. Some of these activities are given below:

Interview on Child Development at DPU.

Child Development at DPU. (Kütahya Dumlupınar University, Turkey )

The Role of Women in The Reconstruction of The Turkish World Panel at DPU.  
(Kütahya Dumlupınar University, Turkey )

Sports and Barrier-Free Life Panel at DPU. (Kütahya Dumlupınar University, Turkey )

**[6.11] Number of Sustainability Community Services Project Organised and/Or Involving Students**

Information on 8 sustainability community services projects organized by and/or involving students of Dumlupınar University is given in the table below.

Project Name	Participants	Project Duration	Project Area
Kütahya Do it Yourself Workshop	Children aged 6 to 14	Permanent	Education
Şaphane Do it Yourself Workshop	Children aged 6 to 14	Permanent	Education
Gediz Do it Yourself Workshop	Children aged 6 to 14	Permanent	Education
DPU's Gluten-Free Kitchen Project	Pazarlar Vocational School	2 years	Education
Stone and Silver Turning into Jewelry, Obstacles Removed Project	Disabled	Permanent	Waste

Zero Waste International Poster Contest	Everyone		Water
Gediz Do it Yourself Workshop Techno-Festival	Children aged 6 to 14	Permanent	Education
Simav Do it Yourself Workshop	Children aged 6 to 14	Permanent	Education

## [6.12] Number of Sustainability-Related Startups

There are non-profit digital and non-digital initiatives initiated and carried out by Kütahya Dumlupınar University to ensure sustainability. These initiatives can be summarized as follows:

1. The European Union Project on “Providing Digital Education to Families to Protect Children”, carried out by Kütahya Dumlupınar University and partnered by Kütahya Provincial Directorate of Family Labor and Social Services, universities from Spain, Greece, Italy and Lithuania, aims to raise awareness about child abuse and neglect.
2. In cooperation with Kütahya Dumlupınar University Faculty of Fine Arts and Visual Arts Education Association, the group exhibition "Art Education in the Epidemic Period" with an international jury was opened, and cultural elements is aimed to be transferred to future generations through art.
3. Under the leadership of Kütahya Dumlupınar University, a training cooperation protocol was signed between Kütahya Governorship, Kütahya Municipality and Provincial Gendarmerie Command. With the signed cooperation protocol, it is aimed to expand education and training activities, to integrate with the city, to develop joint projects with public institutions, to maximize cooperation between institutions, and to use infrastructure opportunities in the most efficient way.
4. Kütahya Dumlupınar University Faculty of Fine Arts and Kütahya Municipality jointly prepared the “Municipality-University Hand in Hand to a Strong Future for Kütahya” project. Within the scope of the project, it is aimed to ensure the participation of women, youth and children in education and employment. Within the scope of the project, contributing to social development by ensuring the participation of women, youth and children, who are among the disadvantaged groups, in education and employment, and the labor and labor force needed by tile and craft enterprises with the women's cooperative and institutional With a sustainable model, establishing a new and innovative system and creating a social development model, in

Kütahya, which is the capital of tile art and included in the UNESCO Creative Cities Network in the field of Crafts and Folk Arts, to increase the production and income in tile and other folk arts. It is also aimed to establish training centers in order to increase the number of artists and craftsmen and to ensure the development of human capital for the development of the city with creative cultural sectors. This project received support from the Ministry of Industry and Technology.

**5.** In order to raise awareness for disabled citizens who could not leave their homes during the pandemic process, a fishing event was organized by the Kütahya Dumlupınar University Accessible Student Unit with the slogan "I'm Fishing Without Barriers".

**6.** Quantitative PCR analyzer belonging to Kütahya Dumlupınar University has been made available to Kütahya Health Sciences University Evliya Çelebi Training and Research Hospital, which is struggling with the Covid-19 outbreak.

**7.** A protocol was signed between Kütahya Dumlupınar University and Kütahya Provincial Directorate of National Education, which envisages mutual assistance and cooperation in the implementation of the "Kütahya is Livening Up with Science" project. According to the signed protocol, DPU Advanced Technologies Center (ILTEM) will organize a 3D Printer and Microscope event during the festival.

**8.** Our Education Faculty will carry out activities with 20 students who will take part in the project voluntarily. The vehicle prepared in our Engineering Faculty and working with renewable energy will be exhibited in the festival area and the telescope of our Physics Department will be allocated for the event.

**9.** The project "5kW Artificial Neural Network Controlled Modular Hybrid Inverter Project" prepared by Kütahya Dumlupınar University academicians received TÜBİTAK support. With the new generation modular inverter developed within the scope of the project, more than one renewable energy source can be used in the same inverter.

However, the user will be able to add the appropriate MPPT modules to his inverter for each renewable energy source he wants to add to his system. Thus, the user will be freed from the cost of a separate inverter for each renewable energy source. In addition, when the user wants to improve or modify his system, it will be sufficient to simply purchase the MPPT module of the renewable energy source he will add to his system and add it to his inverter. Within the scope of the project, a 5 kW artificial neural network controlled source-side hybrid and grid-side hybrid modular inverter system will be produced.

**10.** A protocol was signed between the Department of Biology of Kütahya Dumlupınar University (DPU) and the General Directorate of Nature Conservation and National Parks (DKMP) for cooperation in the field of flora within the scope of the biodiversity inventory and monitoring project of Kütahya province. Within the scope of the National Biological Diversity Inventory and Monitoring Project initiated by DKMP with the signed protocol, it was agreed that DPU Biology department and DKMP monitoring studies could be carried out in cooperation with the DPU Biology Department in the field of flora within the scope of the biological diversity inventory and monitoring project of the province of Kütahya.

**11.** Rainbow ISC, one of the Kütahya Tasarım Teknokent companies, has completed the R&D studies of 11 products in three different models in order to find solutions to the problems experienced in the landscape and agricultural irrigation sector and to reduce waste by reducing unnecessary water consumption thanks to remote- controlled irrigation systems.

**12.** Kütahya Dumlupınar University will contribute to the employment of disadvantaged groups with the "Stone and Silver Transform into Jewelry, Barriers Remove" project. The overall objective of the project is to revitalize a forgotten craft area such as ornamental stone shaping and silver jewelry making in Kütahya, which has been declared a creative city by UNESCO in the field of craft and folk arts, and to provide employment and employment opportunities for disadvantaged groups, especially people with disabilities. It is planned to contribute to the creation of an alternative business line to increase their employability.

TEKNOLOJİ BAKANLIĞI**

## CONCLUSION

Due to the scarcity of world resources, it forces human beings to use scarce resources effectively. As it is known, the necessity of effective use of scarce resources has been discussed since the second half of the 20th century, on the basis of sustainable development goals. Especially in recent years, climate change, natural disasters, increase in air pollution level, threat of drought, epidemics necessitate the creation and implementation of a strategy within the framework of sustainability in all activities of humanity. Human beings affect every living and non-living being that makes up the environment and society with their activities. For this reason, human beings should be aware of their responsibilities towards the environment and society in order to meet their basic human needs and survive today and in the future.

Kütahya Dumlupınar University, which has adopted the mission of being an education-oriented university that trains individuals with professional qualifications in various fields with the responsibility of scientific research and service to society, is a university that is aware of its responsibilities towards the environment and society. Being sensitive to the environment and being responsible to the society are the basic values of our university. In line with these core values, educational activities, scientific meetings, events and projects have been realized for both internal and external stakeholders.

Kütahya Dumlupınar University strives to continuously improve the structure and infrastructure in all its campuses in terms of environment and society. Currently, most of the campuses within DPU are covered with forest and green areas. Despite this, afforestation and greening works continue to be carried out with the participation of students, academic and administrative staff within the body of DPU. It has also established facilities and infrastructure for the health, safety and well-being of students, academic and administrative staff. DPU, which makes the necessary arrangements to ensure that disabled people are unhindered on campus, was awarded 14 flags within the scope of YÖK Barrier-Free University Awards.

DPU prefers the use of energy efficient devices in order to contribute to sustainability in energy and climate change. The university prefers to use energy efficient devices in the support services carried out in order to

ensure the uninterrupted execution of education and training, which is its main field of activity. Our campuses have green buildings that benefit from sunlight through large windows, glass ceilings and polycarbonate roofs. There are green areas inside the buildings in various academic and administrative units of our university. In addition, DPU implements greenhouse gas emission reduction programs within Scope 1, Scope 2 and Scope 3 to reduce greenhouse gas emissions, which are the most important determinants on climate change. It provides training, offers educational materials and carries out activities to the surrounding communities and at the national level in order to raise awareness about climate change and ensure its mobilization.

For the recycling of organic, inorganic and toxic wastes, which is another important issue in ensuring sustainability, DPU has made agreements with organizations providing recycling services in line with the relevant regulations. It also implements 6 programs to reduce the use of paper and plastic on campus.

The fact that the drought started to be felt in our country once again revealed the importance of water saving. DPU saves more than 50% of water with its water saving programs and practices. In addition, with the water recycling program implementation, it saves 30% water, uses 30% water efficient devices, and consumes 80% purified water.

In order to reduce greenhouse gas emissions in transportation, zero-emission vehicles were acquired by our university and these vehicles were made available to academic and administrative staff free of charge. In addition, it is aimed to reduce the use of private vehicles on campus by offering vehicles such as bicycles, UTVs and ATVs that can be used on campus. Pedestrians have also been considered within DPU, and safe, convenient and disabled-friendly pedestrian paths have been put into use within the campus.

DPU is aware that the starting point in ensuring sustainability is the production of knowledge and its transfer to people. Therefore, it is possible to see the traces of sustainability within the scope of education and research activities. In the 2020-2021 period, 3,642 of the 28,481 courses given at DPU are related to sustainability. In addition, 24% of the total research budget in 2018, 2019 and 2020 was allocated to research related to sustainability. The average number of academic publications on sustainability made by DPU academics in 2018, 2019 and 2020 is 476. Again, the average number of events organized or hosted by DPU in 2018, 2019 and 2020 is 18. DPU encourages its students to work on sustainability issues through organizations/clubs. There are 23 student societies operating on issues related to sustainability within DPU. In addition, cultural events are organized within the body of DPU on sustainability issues, and 8 sustainable community services projects, including students, were carried out in 2020. In addition, it is aimed to contribute to sustainability with 12 initiatives initiated by our university or in which our university is a stakeholder.

In summary, Kütahya Dumlupınar University, with the initiatives and participation of our rector, vice-rectors, academic and administrative staff, students, conducts studies on sustainability issues such as human rights, animal rights and protection of animals, providing equal opportunities in education, providing barrier-free education for students with disabilities, protecting and improving the environment, reducing greenhouse gas emissions, saving water and energy, using renewable energy resources, providing lifelong learning, providing education for the society. resources, reducing poverty, protecting water and life on land. In order to contribute more to sustainability, it will be beneficial to increase green areas, to increase the work to be done on sustainability and the budget to be allocated to these studies, to increase the production and use of renewable energy, and to increase the number of courses on sustainability.
